Grammar: Gerunds
Vocabulary: Talents and hobbies
Social language: Introduce two classmates • Suggest an activity

Topic Snapshots

1.03 **1. Snapshot 1** Read and listen to the students talk about their talents and hobbies.

Maria
Monterrey, Mexico

I'm a people person and a good listener. I love meeting new people and helping them with their problems. My hobby is blogging, and in fact I have an online advice column called Ask Maria. Kids write me, often about boyfriend and girlfriend problems, and I answer them.

Brian
Boston, U.S.

I'm pretty good at putting things together right out of the box. My little brother got a train set for his birthday. The set came in a lot of pieces, but the instructions weren't good. I put the set together for him. He said, "Thanks, Brian! You're the best." That made me feel terrific!

Claire
Vancouver, Canada

Some people are afraid of speaking in front of a lot of people, but not me. When there's a presentation in class, I'm usually the first one to stand up, and I enjoy helping my classmates. I also love acting in plays. After school I participate in the public speaking club and the drama club. They're both lots of fun.

2. Complete the statements about each person's abilities.

- If you need to build some furniture, Brian can help.
- If you don't have many friends and don't know what to do, write to _____.
- If you like watching plays, go and see _____ perform with her drama club this weekend.

1.04 **3. Snapshot 2** Read and listen to the conversation.

Sophia: Hey, Sarah. This is Nick. He's a new student. Nick, this is my friend, Sarah.

Nick: Nice to meet you, Sarah.

Sarah: Same here. Welcome to our school.

Sophia: Nick's coming to karate club with me. He's got a black belt!

Sarah: Wow! That's incredible! But, Sophia, you're pretty good at karate, too.

Sophia: Not that good.

Nick: So, Sarah, are you going to karate club, too?

Sarah: Actually, no. I'm going to drama club. I love acting in plays.

Nick: Afterschool clubs are so cool.

Sarah: Well, I don't want to be late. See you later, guys!

4. Answer the questions. Write Sophia, Nick, or Sarah.

- Who's a new student? Nick
- Who's taking someone to karate club? _____
- Who's good at karate? _____ and _____
- Who's not going to karate club? _____
- Who's going to drama club? _____

Vocabulary Talents and hobbies

1.05) **1.** Look at the photos. Read and listen.

1. public speaking

2. solving puzzles

3. inventing things

4.	Kate Arnold		
5.	Sean Benson		

Grammar Gerunds

1. Study the grammar.

A gerund is the *-ing* form of a verb that functions as a noun. Use a gerund:

- as a subject
Biking is my favorite weekend activity.
- as the direct object after the verbs *like, love, enjoy, dislike, hate, can't stand, suggest, and stop*
 I **don't like speaking** in public.
 I'll never **stop doing** puzzles. I **love solving** them.
- after the verb *be*, to give information about the subject of a sentence
 My father's hobby is **playing** tennis.
- after an adjective + preposition expression such as *good at, bad at, happy about, crazy about, and afraid of*
 My boyfriend is **good at putting** things together.

Language tip

- Don't confuse gerunds with other words that end in *-ing*:
 - present participles: *playing* (*I'm playing tennis.*)
 - adjectives: *exciting* (*The movie was so exciting.*)

1.08

2. Pronunciation Listen to the grammar examples. Repeat.

Do you like **speaking** in public?

No way. I'm afraid of **being** in front of a lot of people!

3. Circle the gerunds in the statements. Be careful! Not all the *-ing* words are gerunds.

1. Clark enjoys playing the drums, but his parents can't stand hearing them.
2. Selma is doing a crossword puzzle. She really enjoys solving them.
3. My hobby is kayaking. It's so exciting.
4. Watching horror movies is way too scary for me. I'm afraid of those kinds of movies!
5. My friends are crazy about surfing. They're going to the beach this weekend.

4. Complete the statements and questions with gerunds.

1. I don't like going _____ (go) to the beach when it's cloudy.
2. I can't stand _____ (listen) to hip-hop music when I have a headache.
3. My sister's favorite Sunday morning activity is _____ (cook).
4. _____ (play) the piano really makes me happy.
5. _____ (hike) can be really hard in hot weather.
6. My sister's friend Alison hates _____ (practice) the piano.
7. My family is crazy about _____ (watch) old movies.

5. Can you identify the grammar? Choose the function of each gerund.

		subject	direct object	gives information about subject	follows an adjective + preposition
1.	I hate <i>shopping</i> .		✓		
2.	My mom is afraid of <i>flying</i> .				
3.	<i>Fixing</i> cars is hard.				
4.	I don't like <i>public speaking</i> .				
5.	<i>Swimming</i> is boring.				
6.	The best part of art class is <i>painting</i> .				

6. Write the correct gerunds and circle the correct Vocabulary to complete each conversation.

1. A: So, what do you enjoy doing (do) on weekends?
 B: Me? I like _____ (hang out) with my friends or _____ (go) to parties.
 A: You're so good at **meeting new people** / **putting things together**! This is my first year in this school, and I don't have a lot of friends like you do.
 B: No problem. I'll introduce you to some of mine!

2. A: Hey! *Life of Pi* is on TV tonight. Let's watch it on the new flat-screen TV! I'm crazy about _____ (watch) movies with special effects on a big screen.
 B: Me, too! But the table for the TV is still in the box. You know I'm not very good at **solving puzzles** / **putting things together**.
 A: Don't worry. I'll help you after work.

3. A: Hi, Terry. Are you going to talk about the movie at tomorrow's school meeting? I love _____ (listen) to your opinions about movies.
 B: Thanks! Yes, I am. But I'm a little worried about it. I can't stand _____ (talk) in front of so many people.
 A: Really? I think you're great at **public speaking** / **meeting new people**. Don't worry.

4. A: Sam, what's a nine-letter word for a scary pet with eight legs? The first letter is "T."
 B: Easy! Tarantula.
 A: Thanks! I'm really not good at **solving puzzles** / **inventing things**.
 B: Well, crosswords are one of my favorite hobbies. I really like _____ (do) them.

5. A: I don't like _____ (cook). It's too messy for me.
 B: Really? I like _____ (make) cakes for my friends. Right now, I'm making some cupcakes that are going to look like volleyballs for the team party.
 A: Awesome! You're so good at **inventing things** / **meeting new people**.

About you!

Do you have a special talent or hobby? Complete the statements with gerunds.

My hobby is _____. I love _____.

Reading An online advice column

1.09 1. Read Maria's advice column. What's Tom's problem?

2. **Recognize a point of view** After reading the advice column, check the statements that represent Maria's point of view. Write an X next to the statements that do not.

1. Making new friends is impossible for shy people.
2. Tom should stop being so shy.
3. A club can meet in school or outside of school.
4. There are probably other students in Tom's school who like puzzles and games.
5. Forming a club or a group is a good way to learn something new.

3. **Find supporting details** Answer the questions. Then underline information in the text that supports your answer.

1. Why does Tom have difficulty making new friends?

I'm fifteen years old, and I have a problem. This is my first year in a new school, and I don't know many of the kids. I'm pretty lonely. I want to meet some new people and make some new friends, but I'm pretty shy, and I'm always a little afraid of starting conversations with people I don't know. Everyone else goes out on the weekends, and I stay home. What should I do?

Tom, Toronto, Canada

It's understandable that you're not happy about staying home on the weekends. And it can be hard for a shy person at a new school. If you're not great at starting conversations, maybe there's another way. Do you have any hobbies? Sometimes having a hobby can help you make friends with people who have the same interests.

Maria

I guess my hobby is solving puzzles. I love doing them, and the harder the better! In fact, I enjoy doing all kinds of puzzles and playing word games.

Tom, Toronto, Canada

Here's an idea: Why not start a puzzle club? If your school has afterschool clubs, you can have your club at school. If not, I suggest meeting at the food court at a mall or maybe in the park. The members of the club can even invent their own puzzles and games and have contests. I'm sure there are other kids at your school who enjoy puzzles and games. Joining a club is a great way to meet new people who have something in common with you.

Maria

...

4. **Understand meaning from context** Read each statement from Maria's column. Choose the sentence with the same meaning.

1. "I'm pretty lonely."
 - a. I'm sad because I don't have friends.
 - b. I love figuring things out.
2. "I love doing them, and the harder the better!"
 - a. I don't like trying to solve hard puzzles.
 - b. I enjoy trying to solve hard puzzles.
3. "Joining a club is a great way to meet new people who have something in common with you."
 - a. If you join a club, you can meet people who like the same things as you.
 - b. A great way to join a club is to meet people who have something in common with you.

About you!

In your notebook, write what you think Tom should do.

**Introduce two classmates;

Topic Snapshots

1.15 1. Snapshot 1 Read and listen to the conversation.

- Mom: Are you OK? You look really tired!
- Kevin: Yeah. I'm OK, Mom. I guess I stayed up too late last night. I was trying to finish my English homework. It's due today.
- Mom: Kevin, it's important to get enough sleep. Next time you should start doing your homework after dinner instead of watching TV. Don't you have a math test today?
- Kevin: Don't worry, Mom. It's on Wednesday. By the way, I'll be home a little late today.
- Mom: Really? Why's that?
- Kevin: I need to study for the math test. Some of my classmates and I plan to meet at the library after school. We're going to study together.
- Mom: What a great idea! It's fun to study together.
- Kevin: And tonight I'll get plenty of sleep. I promise!

2. Read the statements. Circle T (true) or F (false).

- Kevin stayed up late last night. T / F
- Kevin was up late because he was working on his homework. T / F
- Kevin's mom thinks studying with his classmates is a bad idea. T / F
- Kevin doesn't plan to study for the test today. T / F
- Kevin is going to study for the test after school on Wednesday. T / F

3. Snapshot 2 Take the survey. Complete the statements so that they are true about you. Write *always*, *sometimes*, or *never*.

Do you have good habits?

- I _____ eat healthy food.
- I _____ eat junk food.
- I _____ save money.
- I _____ spend too much money.
- I _____ study before a test.
- I _____ leave things until the last minute.
- I _____ make plenty of time for exercise.
- I _____ get plenty of sleep.

About you!

Write about your good and bad habits. Use your survey for information.

I think I have pretty good habits. I don't eat a lot of junk food and I always get plenty of sleep.

Grammar Infinitives

1. Study the grammar.

An infinitive is *to* + the base form of a verb. Like a gerund, it functions as a noun in a sentence, often as a direct object.

- Always use an infinitive after these verbs: *choose, decide, learn, need, plan, want, and would like*.

I **want to get** more exercise.

We **plan to meet** after school.

They **need to save** money.

Jake **would like to have** better study habits.

- You can make general statements or express opinions using *It's* + adjective and an infinitive.

It's fun **to study** together.

It's better **to exercise** several times a week.

It's important **to get** enough sleep. It isn't easy **to change** your habits!

- You can use an infinitive or a gerund after these verbs: *like, love, hate, can't stand, start, stop, and try*.

I **love to sleep** late. = I **love sleeping** late.

They **started to learn** Chinese this week. = They **started learning** Chinese this week.

Would you like **to go** to the movies?

Sure!

Language tips

- Never use an infinitive after *enjoy*. Use a gerund.
My parents enjoy eating dinner early. NOT My parents enjoy to eat dinner early.
- Never use a gerund after *want, decide, choose, need, learn, plan, or would like*. Use an infinitive.
I would like to go to the movies. NOT I would like going to the movies.

1.16

2. Pronunciation Listen to the grammar examples. Repeat.

3. Complete the statements and questions with infinitives.

1. My cousin Alice learned to speak (speak) Russian last year.
2. Sometimes I want _____ (stay up) late because there's a good movie on TV.
3. Do you need _____ (study) for the test tonight?
4. I plan _____ (start) exercising three times a week.
5. Does your brother like _____ (play) basketball?
6. We would like _____ (introduce) you to our new teacher.
7. They decided _____ (play) in the school orchestra last year.

4. Write statements with infinitives. Begin each statement with a capital letter. Use contractions.

1. It's really boring to eat _____ (really boring / eat) beans all the time.
2. _____ (not smart / leave) things until the last minute.
3. _____ (pretty awesome / exercise) early in the morning.
4. _____ (not great / stay up) really late every night.
5. _____ (better / save) some money every week.
6. _____ (not cool / spend) too much money.

5. Read about Solange. Circle the gerund or infinitive to complete the paragraph.

Solange really enjoys (1) to eat / eating sweet foods, like candy, cake, and cookies, but she knows it's important (2) to have / having good, healthy meals. She would like (3) to change / changing her habits and stop (4) to eat / eating so much junk food. Solange plans (5) to eat / eating only healthy foods on weekdays. She isn't crazy about (6) to eat / eating only healthy foods all week, so on the weekend, she plans (7) to have / having some sweet foods. She's learning (8) to change / changing her eating habits, but it isn't easy (9) to do / doing. Even though she wants (10) to eat / eating candy all the time, she knows it's better (11) choosing / to choose something healthy to eat.

6. Rewrite each statement or question, using an infinitive instead of a gerund.

1. I like to eat healthy foods.

2. _____

3. _____

4. _____

5. _____

6. _____

7. Listening comprehension Listen to each conversation and complete the statements. Use a gerund or an infinitive after the verbs.

1. He plans to visit his grandparents this weekend.

Tips for successful studying

It's important to develop good study habits. Here's how.

1. Preparing for homework assignments

Be sure you understand what the teacher expects. If you're not sure, ask questions before you leave class. Always write down the assignment and its due date in your notebook. Don't just try to remember it!

2. Creating a study space

Is it difficult to pay attention when you study? Do you surf the Internet instead, or text your friends? Create a quiet and neat place at home where you can study without distractions like loud music or the TV. Turn off your phone and computer when you can.

3. Taking notes

Make a habit of taking good notes during class. Don't try to write down every word your teacher says. Instead, summarize the main ideas. It's a good idea to write notes when you study from your textbooks, too. Write down the main ideas you need to remember.

4. Managing your time

Use your time well. Put a calendar on your wall and use it to keep track of your assignments. It will be easier to remember when things are due. Choose a time that's good for you to study: for example, when you get home from school or after dinner. And make sure you take regular breaks. For example, after an hour, take a walk or have a healthy snack.

A well-organized study space

5. Developing good personal habits

Let's face it. If you're tired or feel sick, studying will not be easy. Getting enough sleep and exercise and avoiding junk food are important. You will study better when you're rested and in good health.

3. **Skim for content** Write the paragraph number where you can find the following ideas.

1. It's not a bad idea to pay attention to your health. 5
2. It's better to pay attention to main ideas. _____
3. It's a good idea to know what your teacher expects. _____
4. It's smart to have a special place for studying. _____
5. It's important to plan your study time. _____

About you!

In your notebook, write the suggestions you think are the most useful. Explain why.

Compare your good and bad habits

Teen2Teen Friends

Open question: What was your city like years ago?

Abby Morgan: Hi, everyone! I'm new to Teen2Teen Friends. I'm posting from Chicago, in the United States. I asked my dad that question. Here's what he told me.

My dad says when he was a boy, Chicago used to have the second biggest population in the U.S., after New York City. That's why people gave Chicago the nickname "Second City." Today, the population is getting smaller, and Chicago isn't as big as Los Angeles, the new "number two." But people still call Chicago "Second City."

My dad also says Chicago wasn't as awesome as it is now. For example, it didn't use to have Millennium Park. Today, the park is one of Chicago's greatest tourist attractions. It's huge and has incredible sculptures, like the famous Cloud Gate. I posted a picture. Is that cool or what?

Our city's tallest building, the Willis Tower, used to be the tallest building in the world. However, today it isn't as tall as some skyscrapers in other countries.

One thing that's still the same, though, is the weather. In the winter, Chicago can get very, very cold and windy. That's because it's next to a huge lake called Lake Michigan. As a matter of fact, Chicago has another nickname in addition to "Second City." Everyone calls it the "Windy City." But in the summer, when it's really hot, the wind from the lake helps keep things cooler!

Chicago is on Lake Michigan – beautiful!

Cloud Gate in Millennium Park

2. Read each statement. Write *In the past*, *Today*, or *Both*.

- Chicago is the second largest city in the U.S. In the past
- People call Chicago "Second City." _____
- Chicago has the tallest skyscraper in the world. _____
- Chicago is very cold in the winter. _____
- Los Angeles has more people than Chicago. _____
- People visit Cloud Gate in Millennium Park. _____

Grammar Comparisons with *as ... as*

1. Study the grammar.

Use *as + adjective + as* to say that two things are equal or the same.

My classmates this year **are as nice as** my classmates last year.

Miami **is as hot as** New Orleans in August.

Use *not as + adjective + as* to say that two things are not equal or not the same.

Willis Tower in Chicago **isn't as tall as** One World Trade Center.

Jazz and classical music **aren't as popular as** hip-hop music.

Reminder

Comparative adjectives also show that things are not equal.

One World Trade Center is taller than Willis Tower.

2. **Skim for content** After reading the timeline, write the letter of the decade to complete each statement.
1. People used to wear baggy clothes ... _____ a. in the sixties.
 2. Computers in people's homes were bigger than they are now ... _____ b. in the seventies.
 3. People started listening to disco music ... _____ c. in the eighties.
 4. Long hair for men became popular ... _____ d. in the nineties.

Open question: How was life different in the past?

Abby: Hey, guys. Abby here again. Sometimes I think things aren't as interesting today as they were back in the 20th century. Check out this timeline of changing trends in fashion and technology!

The 60s

In the 1960s, men and women wore clothes with wild colors, and it was fashionable for men to have beards and mustaches and long hair. Computers were huge, and no one had one at home.

The 70s

In the 1970s, disco music was popular, and people wore bell-bottom pants and platform shoes, and men wore colorful suits. People didn't have cell phones, so they used to talk to their friends on the phone at home.

The 80s

In the 1980s, the decade of "big hair," young people started watching music videos on TV. People started buying computers for their homes, but they were much bigger than computers today.

The 90s

In the 1990s, young men and women started wearing baggy jeans and hoodies. People started using the Internet, and laptops started to become popular. People started to buy music on CDs, and they also used CDs to save documents on their computers.

Now

Young people are wearing fashions from the last six decades. More and more people are using smartphones for communicating and apps for entertainment. People use flash drives with their computers instead of CDs. And computers are getting smaller and smaller. Tablet computers are becoming more popular than laptops.

3. Scan for information Complete each statement with the correct word or phrase.

1. Snapshot 1 Read and listen to the conversation in an English class in Bogota, Colombia.

Mr. Pinto: Diana, have you ever spoken English outside of English class?

Diana: Actually, no, Mr. Pinto. I haven't. It's not easy to find teenaged English speakers here!

Mr. Pinto: Well, have you met Soojin, the new student from South Korea? She just got here last week. She speaks English.

Diana: I've seen her. But I haven't spoken to her.

Mr. Pinto: Well, she doesn't speak much Spanish yet, but her English is pretty good. I'm sure she'd like to meet some people here.

Diana: Well, I'd like to speak to her, but speaking English is a little scary for me. I'm afraid of making mistakes.

Mr. Pinto: Diana, your English is excellent. And you're not a shy person. Be brave! Soojin won't care if you make a few mistakes. Believe me. She'll make some, too! Everything will be fine.

2. Answer each question, according to the conversation.

Grammar The present perfect for the indefinite past: statements

1. Study the grammar.

- Use the present perfect for actions that occurred and ended at an *indefinite time* in the past.
Greg **has acted** in three plays. (indefinite time = we don't know exactly when)
- Form the present perfect with *have* or *has* and the past participle of a verb.
For regular verbs, the past participle is the same form as the simple past tense.

Affirmative statements	Negative statements
I You We have chatted with her before. They	I You We haven't watched many movies. They
She has looked at the photos.	He hasn't visited Peru.
Many verbs have irregular past participles.	
We've eaten snails.	We haven't eaten peanut butter.
He's gone paragliding.	He hasn't gone snorkeling.

Reminder

We use the simple past tense for actions that occurred and ended at a *definite time* in the past.

I posted a comment yesterday. (yesterday = a definite time)

1.34 Irregular verbs past participles

be	→ been	have	→ had
come	→ come	meet	→ met
do	→ done	see	→ seen
eat	→ eaten	speak	→ spoken
get	→ gotten	take	→ taken
go	→ gone	win	→ won

See page 114 for a complete list.

1.35 Contractions

We have gone. → We've **gone**.
She has won. → She's **won**.

1.36 2. Pronunciation Listen to the grammar examples. Repeat.

3. Choose the correct past participle of the irregular verb to complete the statements.

- Our friends have come / came to all our basketball games.
- Matt's mom and dad have **gone** / went kayaking once or twice, but I'm not sure when.
- Your class hasn't **took** / taken the English test, right?
- Melanie's family hasn't **ate** / eaten at the new American restaurant in town, but they are planning to.
- All my classmates have **seen** / saw the new *Transformers* movie. They say it's great.
- I've **spoke** / spoken English to visitors to my country, but only a few times.

4. Complete the statements with the present perfect. Write full, not contracted, forms.

- Our team has scored (score) only two goals in the last three games.
- My friend Len _____ (play) the piano in a few school concerts.
- My sister _____ (write) several text messages to Laura, but Laura _____ (get) any of them.
- I _____ (chat) online with all of my friends this week.
- Claire _____ (shop) at the downtown mall a few times this month.
- My dad _____ (burn) his hands in the kitchen two or three times.

5. Circle the correct verbs. Choose the present perfect for indefinite times and the simple past tense for definite times.

1. I ve gone / went camping twice. I have gone / went in 2013 with my aunt and uncle, and then I have gone / went again last weekend.
2. My parents haven't eaten / didn't eat snails. But I have eaten / ate them on Friday when I have gone / went to a French restaurant with my French class.
3. We have gone / went kayaking on our school trip two years ago. My brother hasn't gone / went kayaking, but he has gone / went mountain biking on his trip last year.
4. My cousin Tim has asked / asked his parents for a bike last year. They have given / gave him one on his birthday.
5. I have posted / posted on Teen2Teen Friends many times. But my sister hasn't ever done / didn't ever do that.

Grammar The present perfect: *yes / no* questions; *ever* and *never*

1. Study the grammar.

yes / no questions	Short answers	
I you Have we ever taken this bus? they	I you Yes, we have . they	I you No, we haven't . they
he Has she been late a lot? it	he Yes, she has . it	he No, she hasn't . it
We often use <i>ever</i> when we ask about someone's life experiences, especially to mean "in your entire life." You can answer with or without <i>never</i> . Have you ever seen a grizzly bear? No, I haven't. OR No, I never have.		

Language tip • Place *ever* before the past participle. Place *never* before *have* or *has*.

2. Unscramble the yes/no questions and complete the short answers.

1. A: Has your country ever won the World Cup _____? (the World Cup / your country / Has / won / ever)
B: Yes, it has _____. (Yes)
2. A: _____? (the train / Have / taken / ever / to the city / you)

English Club Newsletter

March 25

Soojin has recently moved here with her family. Her father works at the South Korean consulate, so her family will live here for a few years. She started here at our school two weeks ago. Here's Ivan's interview with Soojin about her experiences.

Ivan: On behalf of English Club, Soojin, welcome to our school!

Soojin: Thanks! It's great to be here. Colombia is so cool!

Ivan: I'm glad you like it! So, Soojin, have you ever traveled outside of South Korea before?

Soojin: Actually, no. My parents have always been cautious about letting me travel. They're pretty nervous in general.

Ivan: Why do you think that is?

Soojin: Well, I'm the baby of the family. I think that's why they usually worry about me more than about my two older brothers. But because I came here with them, there's nothing for my parents to worry about now!

Ivan: That's good! Are your brothers here with you, too?

Soojin: No. They stayed in Seoul. They're both in college now.

Ivan: And have you made any new friends here?

Soojin: Actually, I have. Diana Ortiz invited me to English Club, and she's introduced me to a couple of the kids. It's great for all of us because we can practice our English and have fun at the same time!

Ivan: Have you learned any Spanish?

Soojin: A little. I started studying Spanish back in Seoul. But I'm more comfortable speaking in English. But it's still a little scary to use it in "real life." I'm not much of an extrovert, so it's hard, especially when I'm talking to new people!

Ivan: Well, it sounds to me like you're doing really well. We wish you the best, Soojin!

3. **Find supporting details** Circle the correct information, according to the interview. **Underline** the information in the interview that supports each answer.

1. There are two / three children in Soojin's family.
2. The "baby" of the family is the youngest child / one or two years old.
3. Soojin's parents are very brave / cautious.
4. Soojin thinks / doesn't think she's an extrovert.

Grammar The present perfect: *already*, *yet*, and *just*

1. Study the grammar.

Questions

- Use **already** and **yet** with the present perfect to ask questions about recent actions or experiences. Place **already** before the past participle or at the end of the question. Have you **already** seen the doctor? OR Have you seen the doctor **already**? (Yes, I have. / Yes, I already have. / No, I haven't.)
- Always place **yet** at the end of the question. Have you been to the clinic **yet**? (Yes, I have. / No, not yet.)

Statements

- Use **already** in affirmative statements. Place **already** before the past participle or at the end of the statement. I've **already** had my shots OR I've had my shots **already**.
- Use **yet** in negative statements. Place **yet** at the end of the statement. He hasn't had the X-ray **yet**.
- You can use **just** when you describe an extremely recent action. Place **just** before the past participle. I've **just** spoken to the doctor. (He says I don't need an X-ray.)

Reminder

We use the simple past tense for actions that occurred and ended at a definite time in the past.

I had my yearly check-up yesterday.

Language tips

- Don't use **already** in negative statements. *She hasn't spoken to me yet. NOT She hasn't spoken to me already.*
- Don't use **yet** in affirmative statements. *My brother has gotten his braces already. NOT My brother has gotten his braces yet.*

Reading A public health pamphlet

- 1.48
1. Read the public health pamphlet. Why is smoking a serious health problem?
 2. **Identify the main idea** After reading the pamphlet, choose the statement that expresses its main idea.
 1. Most cigarette smokers start smoking when they are teenagers.
 2. Smoking is harmful and hard to stop.
 3. Quitting with a buddy is the best way to stop smoking.
 3. **Scan for information** Read the article again and look for numbers to answer the questions.
 1. Out of every 10 smokers, how many started smoking before they were 18? 9
 2. How many young people in the U.S. start smoking every day? _____
 3. How many of those become daily cigarette smokers? _____
 4. How many years of life do smokers lose on average? _____

Smoking and you

How does smoking harm your body?

- When you smoke a cigarette, the smoke irritates your lungs and can make you cough.
- The chemicals in cigarette smoke can also affect your heart and your entire circulatory system.
- Because smoking damages your lungs, it makes it harder to breathe when you do exercise. And exercise is important for your health.
- Smoking can also affect your social life. For one thing, it makes you, your clothes, and your hair smell like smoke, and it makes your teeth yellow. Not very attractive!

Smoking can make you smell bad.

Did you know ... ?

- Most smokers start smoking when they are in their teens. Almost 9 out of every 10 smokers start smoking by the age of 18, and almost no one starts smoking after age 25.
- Each day in the U.S., over 3,800 young people under 18 years of age smoke their first cigarette, and over 1,000 youths under age 18 become daily cigarette smokers.
- On average, smokers die 14 years earlier than non-smokers.

Smoking can become an addiction. That means it's hard to stop smoking, even if you want to. Here are some tips:

- Find a new activity to do whenever you want to smoke. Starting an exercise program can help.
- Keep healthy snacks nearby and eat them instead of smoking a cigarette.
- Find a "quitting buddy" – a friend who wants to stop smoking, too. Remind each other not to smoke.
- Put the money you usually spend on cigarettes in a box. You will be surprised how much money you can save by not buying cigarettes. Spend the money on something you have wanted for a long time.
- Practice saying, "No thank you. I don't smoke" and say it every time someone offers you a cigarette.

I smoked for a year, and I had a real "smoker's cough." Stopping is the hardest thing I've ever done. But I've succeeded. I'll never touch a cigarette again.

Natalia Barbosa, Belo Horizonte, Brazil

4. **Confirm a text's content** What can help a person stop smoking, according to the pamphlet? Write a check mark.

- a. Talking to a doctor about how to stop smoking.
- b. Eating healthy snacks.
- c. Reminding a friend not to smoke.
- d. Telling people you don't smoke.
- e. Brushing your teeth so they're not yellow from smoking.
- f. Exercising instead of smoking.

Open question: Does your country have any World Heritage Sites?

Jose Luis:

Hi, everyone! My country, Ecuador, has four World Heritage Sites: the cities of Quito and Cuenca, the Galapagos Islands, and Sangay National Park. I'm currently visiting Cuenca with my grandparents. It's beautiful!

I've gone to the Galapagos twice – once with my family and once on a school trip. These islands in the Pacific Ocean are amazing. There's an incredible number of different animals there, like the famous giant tortoises. Some of these tortoises have been alive for more than 150 years! Can you believe that?

For many years, tons of tourists have visited the Galapagos Islands, and environmentalists are afraid that they damage the environment and affect the animals and plants. But now the islands are a World Heritage Site, and there are limits on the number of people who can visit each year.

I haven't visited Sangay National Park yet, but I'd like to. People say that if you like spectacular scenery, this is the best place to go. One of the famous volcanoes there, Sangay, is Ecuador's most active volcano. It has erupted continually since 1934, and it continues erupting today!

People who like beautiful places should visit Ecuador and see our World Heritage Sites – and the rest of the country as well. Do any other Teen2Teen Friends live in a place with a World Heritage Site? Share your information and upload your photos!

My blog: Places of interest in my country

Carlos Lombardi:

Hi, guys! Jose Luis asked if we have any World Heritage Sites in our countries. Iguassu National Park is my favorite World Heritage Site in Argentina. Check out the brochure I got from the travel agent.

Iguassu National Park

River rafting at Iguassu Falls

The park is the site of the world famous Iguassu Falls, located on the Argentina–Brazil border. The waterfall system has 275 waterfalls along 2.7 kilometers of the Iguassu River. The falls divide the river into an upper and a lower section, and the water in the lower section collects in a deep canyon. Leaving the canyon, the water enters the Parana River. Hundreds of thousands of tourists from all over the world visit this popular site every year.

Quick facts:

- Tourists can see the falls from the Argentinean side or the Brazilian side.
- The name of the falls has different spellings: Iguazu (in Spanish), Iguaçu (in Portuguese), and Iguassu (in English).
- Iguaçu National Park in Brazil has been a World Heritage Site since 1987, while Argentina's Iguazu National Park has been on the list for three more years, since 1984.
- Aside from the falls, visitors can also see many species of amazing birds and animals in the subtropical rainforest, and enjoy river rafting expeditions.

Visitors take photos of the falls.

When to visit

- The best months to visit are April, May, September, or October. December through March is summer, and temperatures average from 23° to 32°C. Humidity is often more than 90 per cent – very uncomfortable!
- June through August is winter, with average temperatures from 10° to 23°C, with approximately 60 per cent humidity – so, it's sometimes cold, but usually comfortable. In winter, however, the skies are often cloudy, so your photos might not be as beautiful as on clear days.

4. Scan for information Complete each statement with the correct word or phrase.

- The Iguassu River has two ...
a. sections. b. waterfalls.
- Tourists can see the falls from ... place.
a. one b. more than one

1. Snapshot 1 Read and listen to facts about the history of the Olympics.

Did you know ... ?

- People in Ancient Greece used to have an athletics competition at Olympia every four years until the year 393 AD. The first modern Olympic Games were in Athens, Greece, in 1896.
- Until 1900, there were no Olympic events for women. Gradually, though, women began participating in more and more events. Since the 1960s, women have taken part in most events.
- Olympic participation continues to grow. There are now more than 200 countries that take part in the Games.
- Since 1924, the Winter Olympics have taken place every four years. The Winter Olympics feature skiing and ice skating, among other winter sports, so the Games take place in countries with cold winters.
- There are now two new kinds of Olympic Games: the Paralympic Games (for athletes with disabilities) and the Youth Olympic Games (for teenaged athletes).

Grammar *must* and *must not* to express rules and prohibitions

1. Study the grammar.

- Use *must* + a base form to express rules and prohibitions, especially in writing and on signs. In spoken English, *have to* / *has to* is more common for expressing rules.

All spectators
must enter
the stadium
before 9:00.

We **have to enter** the stadium before 9:00.

Athletes
must not be late to
events.

We **have to be** on time.

- For questions about rules, use *have to* / *has to*, not *must*.
Do we **have to bring** two uniforms to the event?
- Use negative statements with *must* to express *prohibition*.
Students **must not be** late for the exam = It's prohibited (against the rules) to be late.

Language tip

- Always use a base form, not an infinitive, after *must*.
Passengers must be at the airport one hour before their flight.
NOT *Passengers must to be at the airport one hour before their flight.*

6. An adjective with the same meaning as "surprised" is _____.

WINTER OLYMPICS UNDERDOGS

Does a country have to have lots of snow and ice in order to send athletes to compete in the Winter Olympic Games? Not necessarily!

Jamaica, a tropical country with no snow or ice, first entered a team in the bobsled event in the 1988 Olympic Games in Calgary, Canada. Since then, a Jamaican team has competed in several Olympic Games and continues competing today. There is even a famous movie, *Cool Runnings*, about the team.

How and why did a Jamaican team enter a sport that they couldn't easily practice at home? There are two factors that encouraged the Jamaicans: Jamaica has almost always entered fast runners in the Olympics, and every year there is a big pushcart race in Jamaica. Pushcarting is similar to bobsledding: athletes have to run and push the cart fast and then jump onto it. So maybe the idea wasn't so crazy!

When the Jamaicans arrived at the 1988 Olympics, the world was shocked. They were the underdogs: no one thought they could win. Unfortunately, the team didn't finish the race because their sled crashed. But their story became world famous, and the Jamaican bobsled team keeps trying. The world is rooting for them to win an Olympic Gold Medal one day.

What has the story of the Jamaican bobsled team taught us? You don't always have to win to be a success.

2.21 1. **Snapshot 1** Read and listen to the recycling checklist. Check the things you recycle.

What can you recycle?

Food products

Put egg shells, coffee grounds, tea bags, fruits and vegetables, and other leftover food from meals into a compost bin outside.

You can use leftovers to make garden soil so you can grow your own vegetables.

Glass and plastic

Put glass and plastic bottles for milk, juice, soda, and water in special recycling bins. You can also recycle certain plastic food containers if they have the recycle symbol on them.

Aluminum

After drinking soda and juice from cans, recycle them. You can also recycle old bikes and other metal products made of aluminum.

Paper products

Tie newspapers, magazines, old letters, printer paper, and empty food boxes together and recycle them.

Electronic products

Some electronics stores will take your old TVs, phones, computers, and more. Don't put these in the garbage!

Reading An informational leaflet

2.29

1. Read the leaflet. What is a landfill?

2. **Identify the main idea** After reading the leaflet, check the statement that expresses its main idea.

1. Cities need to manage their landfills well to protect the environment.
2. Some landfills are really huge.
3. In some landfills, people look for reusable materials.
4. Landfills can cause problems for the environment.

What are we supposed to do with all that garbage?

At school, you finish lunch in the cafeteria, and the paper plates and napkins, the plastic cups and forks, the cans or bottles, and everything you didn't eat, all go into the garbage. At home, you take out the garbage and someone takes it away. Then what? What happens to all that stuff? Multiply that by the number of people in your city, and that's a lot of garbage every day!

Cities are supposed to manage their garbage, and most of a city's garbage ends up in a huge landfill. The city might burn some of the garbage. And it might decide to recycle some of it. But most of the garbage stays in that landfill year after year, and the landfill just gets bigger and bigger. Some landfills are almost as high as mountains.

But here's the issue. Landfills might cause more problems for the environment than they solve:

1. The water we drink comes from under the ground. A landfill might pollute that water so people can't drink it safely.
2. Burning mountains of garbage contributes to air pollution. However, even if a city doesn't burn its garbage, landfills still produce harmful methane gas and carbon dioxide.
3. All that garbage attracts animals and insects, such as rats and flies. Many people worry that this might spread disease.
4. Landfills are just plain ugly! There are few things as ugly as a landfill.

Landfills produce methane gas and carbon dioxide.

Landfills can pollute drinking water that comes from underground.

Nevertheless, in spite of their disadvantages, landfills can also be good places to find materials for recycling. At some landfills, cities recycle the gases so they can use them to produce energy to run factories. At others, city workers look for reusable materials and things the city can recycle.

Today, many people are separating recyclable materials such as paper, glass, and plastic before they go into the garbage and end up in a landfill. If more people do this, it might reduce the negative impact of landfills.

3. Confirm a text's content Circle T (true) or F (false), according to the leaflet.

1. If a city doesn't manage a landfill well, it might cause air and water pollution. **T** / F
2. A landfill might attract animals and diseases. T / F
3. Some landfills are really beautiful. T / F
4. A landfill can produce energy for factories. T / F
5. It's a good idea to recycle garbage before it goes to a landfill. T / F

Teen2Teen Friends

Carmela:

Hey, guys. I'm studying advertising techniques in my social studies class this year. Have a look at these ads from the Internet, and let me know which products look good to you.

Abby: Thanks, Carmela! I'd really like a product like Clear Skin because I actually have skin problems. But two hours doesn't sound very realistic, does it? So I guess I like the product, but I don't believe the claim. What do the rest of you guys think?

Carlos: I hate to say it, but I think Clear Skin's claim is ridiculous. It's important to think before spending money on a product that won't work.

Chen: Well, I'm not fat, but I'd like to lose a little weight, so I think the *Neanderthal Diet* book sounds great. It says you don't have to diet! Dieting is so unhealthy.

Carlos: Come on, Chen! You don't believe that, do you? It's called the Neanderthal Diet. Hello! How do they even know what Neanderthals ate? They should call that book *Think Fast*, not *Thin Fast*! And the New Heights Gym? That's the most ridiculous claim of them all.

Chen: I guess you're right. Now that I think about it, Carmela, I guess all these ads are a little silly. I don't want any of these products!

Carmela: Thanks, guys! That'll help me with my project. The kids on Teen2Teen are pretty smart.

Come to the New Heights Gym

Use our scientific stretch machines and grow taller in just two weeks!

Want to lose weight?

No need to diet!
Eat all you want!

1. Read Carmela's report on Teen2Teen Friends. What do advertisers think about when they create ads for teens?
 2. **Identify the main idea** After reading the report, choose the statement that expresses its main idea.
 1. Teens spend a lot of time online.
 2. Use critical thinking skills before believing an ad's claims.
 3. Advertisers pay to put their brands in TV programs and movies.
 3. **Understand meaning from context** Read the report again. Choose a word or phrase to complete each statement.
 1. When you're online, you might see pop-up ads / TV programs on the side of the screen.
 2. Teens spend a lot of time in digital environments such as social media sites / advertisements.
 3. Coca-Cola and Apple are two examples of advertisers / brands.
 4. When advertisers promote a product, they are trying to sell it / buy it.
 5. Product placement is one kind of claim / advertisement.
 6. When you are gullible / skeptical, you believe everything you see.
 7. A skeptical person doesn't think / thinks before believing an advertiser's claims.

Open question: Do you have a school project you'd like to share?

Carmela: Hey, guys. Here's my report about advertising techniques. Thanks for your help!

Think critically when you see an ad

If you are a teen between the ages of twelve and seventeen, advertisers know how to find you and how to promote their products to you. Teens see thousands of advertisements every day: in magazines, on outdoor signs, as pop-ups online, and on TV. Some ads don't even appear to be ads; advertisers hide them in TV programs and movies in a practice called "product placement." We see our favorite actor using a company's brand of computer or drinking a certain brand of soda, and this makes us think the product is cool.

Advertisers understand how to motivate teens to buy. They know that people in our age group are sensitive about our appearance and want to have the coolest products. And advertisers know that we spend much of the day in a digital environment, so they put ads online, especially on social media sites. They can also see the recommendations we make when we hit "Like."

Many ads make untrue claims, and the products are often a waste of money. Learn to look at each ad critically so you can make a good decision to buy or not buy the product.

We see ads on outdoor signs every day.

Pop-up ads sell products online.

Be "ad savvy"

1. Advertisers know it's easy to make us worry about our weight, our skin, our height, and the clothes we wear. Check to see if the ad uses pictures or words that make you feel bad about your appearance.
2. Don't be gullible. If a claim sounds too good to be true, it probably is. Instead, be skeptical: think carefully before you believe a claim that the advertiser says is a "miracle" or guaranteed.

3. Recognize product placement. When you see a brand name in a TV program or a movie, remember that it's not accidental; an advertiser paid to put that brand in front of your eyes.

4. **Confirm a text's content** Circle T (true), F (false), or NI (no information), according to the report.

1. Advertisers know how to sell to teens. T / F / NI
2. The most effective ads are pop-up ads. T / F / NI
3. Advertisers understand what teens worry about. T / F / NI
4. Teens are more gullible than adults. T / F / NI
5. When you see a product in a movie, an advertiser probably wants you to see it. T / F / NI

2.44 3. Snapshot 2 Read and listen to three students' experiences.

Norma, 15

"I changed schools last year, and some girls weren't very friendly. When I said hello, they didn't say anything back. Sometimes they laughed at the clothes I wore. I felt so bad, I just didn't want to come to school. Luckily, I met some really nice kids who made me feel welcome. That helped a lot."

"Some guys in my neighborhood were bullying me all the time. So then I started giving kids here at school a hard time. I said I was going to hurt them. It made me feel stronger and more important. But then a good friend reminded me how I felt when those guys in my neighborhood were bullying me, so I don't pick on other kids anymore."

Tristan, 16

"My friend Krista was saying mean things about Mona, a girl in our class. She was telling everyone that Mona wore too much makeup and had ugly clothes. I told Krista I didn't like that, and I invited Mona to hang out with me and my other friends. I'm glad I said something to Krista about it."

Beth, 16

4. Read the statements. Write *Norma, Tristan, or Beth*.

- This person was bullying other kids.
- Someone was bullying these two people.
- This person asked someone to stop bullying others.
- This person's friend was saying bad things about someone.

Dear students,

As you know, there will be a school play at the end of the month. Last year, we didn't ask (1) **anyone** / someone for their help. However, this year, if you have the time, we ask that you please do (2) **something** / nothing to help us prepare for this event.

First, we will definitely need (3) **someone** / anyone to sell tickets at the door. Secondly, can (4) **anyone** / anything play the piano? We still need a piano player!

After the play, we will have refreshments in the cafeteria. We need (5) **anyone** / someone to bring sandwiches and other snacks. If you are good at making sweet things like cake or cookies, please make (6) **anything** / something and bring it to the cafeteria. If you don't want to cook (7) **nothing** / anything, you can help serve the food and drinks.

I know (8) **someone** / no one has a lot of free time, so we are very grateful for your help.

Thank you!

Take a stand! Stop cyberbullying

Peter Lantos started seeing the ugly messages someone posted about him on his social networking site when he was only fourteen.

He didn't know who they were from, only that the posts came from someone called Guess9. The posts continued into high school, and the messages got uglier. Whenever Peter went online, day or night, any day of the week, he would always find more terrible posts. He felt like it was his fault, so he didn't say anything to his parents at first. Sometimes the bullying made him feel so bad he didn't want to go to school. Peter was the victim of cyberbullying. A U.S. survey found that 16% of all high school students are the victims of cyberbullying at some time.

In a number of ways, cyberbullying is even worse than face-to-face bullying. A cyberbully can post anonymously, using an online name, like Guess9, instead of his or her real name. A cyberbully might use his or her posts to gossip about, tell lies about, tease, or even threaten someone. A cyberbully can post someone's personal information or post photos or videos that might be embarrassing to the victim. Hundreds, thousands, or even millions of people might see the message on their laptops, tablets, or smartphones.

What should you do if you're a victim?

The most important thing anyone can do is tell someone. Talk to an adult about it. Don't deal with cyberbullying alone! There are ways to block a cyberbully's posts, and someone can help you do that. And one of the most effective things you can do might be to do nothing. Ignoring the bully, rather than replying to his or her posts, puts you in control. Instead of responding, take a break, or go for a walk. Remember that the cyberbully has done something wrong. You haven't. And what if you have a friend who is bullying someone online? Take a stand! Tell your friend how hurtful it is. You might make a difference.

"I'm glad I finally told my parents about what was happening to me online. No one should have to deal with cyberbullying alone."

Peter Lantos, 16, Houston, U.S.

Enjoy your visit

Avoid being a crime victim

Visiting a new city can be exciting, but every big city has crime. Nevertheless, that shouldn't stop you from having a great time. Here are some tips so that you don't become a victim.

1 Let's start with the obvious. Day or night, don't hang out in areas that don't seem safe. And remember: It's always better to be with other people than to be alone.

2 We all want to look our best, but it's not a good idea to wear an expensive watch or valuable jewelry in public. Carry those in a pocket or bag where no one can see them.

4 Always bring your phone with you, but don't make it easy for someone to steal it. Wait to call or text until you're inside a restaurant or some other safe place. Before you take any photos, be aware of who's nearby.

3 Don't act like you're from out of town. Walk like you live there! Pay attention to your "personal space," and know what the people around you are doing. Earbuds are cool, but, let's face it, you can't pay attention to others while you're listening to music.

5 Be especially careful if you use an ATM or cash machine at a bank or when you're buying souvenirs or tickets. Don't let other people see your money.

There are millions of people who visit cities all over the world every day. Someone somewhere will probably become the victim of a crime. But it doesn't have to be you!

3. Confirm a text's content Complete each statement, according to the flier.

3. It's best to ...
 - a. buy valuables while you are traveling.
 - b. carry your valuables in a pocket.
 - c. wear your valuables.
4. Don't text in public because someone might ...
 - a. steal your money.
 - b. steal your phone.
 - c. take a photo.
5. Pay attention to your "personal space" so ...
 - a. you can listen to music.
 - b. you won't be alone.
 - c. you don't become a crime victim.
6. Don't listen to music in public because ...
 - a. you won't be able to pay attention.
 - b. earbuds aren't cool.
 - c. music sounds better at home.

Open question: What festivals do you celebrate in your country?

Chen: Hey, everyone! We're celebrating the Spring Festival here in China next week. We celebrate it in February or early January. It's the time of the year when we welcome the Chinese New Year. It's my favorite holiday! Here's a website that explains all about it.

The Chinese Spring Festival

Chinese people have celebrated the Spring Festival (or Chinese New Year) for more than 4,000 years! This holiday usually takes place in February, but sometimes it occurs in January, according to the Chinese calendar.

For every Chinese family, it is important to prepare for the holiday before it begins. For good luck, people clean their homes, and they buy themselves new clothes. And, of course, they buy lots of food to eat during the festival, including fish, meat, fruit, and candy. Red is an important color on this holiday. People put up red paper decorations on their front doors and windows.

Everyone in China travels home so family members can see each other for this festival. In fact, it's the largest number of people traveling at the same time in the whole world! Families prepare special holiday foods together, such as dumplings or rice cakes. And the best part? Parents and grandparents give children red envelopes with money inside!

During the holiday, people are very careful not to break anything because it might bring bad luck. Beginning on the evening before the New Year, "dragon dancers" in beautiful costumes go from door to door, beating drums and setting off fireworks all night long. It gets really loud, and it's impossible to sleep!

Even if you can't come to China to experience this fun holiday, there are Chinese New Year celebrations all over the world. If you visit neighborhoods where Chinese people live in your country, you can enjoy the celebrations, too!

In early November, Mexicans celebrate the Day of the Dead to remember their dead relatives and friends. This tradition began more than 2,000 years ago.

Before celebrations begin, family members go the cemetery to clean the graves of their loved ones and decorate them with flowers. Then the whole family visits the cemetery and brings gifts, including food and drinks. Stores sell *pan de muerto*, a special bread for the holiday, and sugar skulls that people can leave as gifts on the graves. Abby: I found a wild and crazy holiday in India! It's called Holi. Check this out!

Holi, or the Festival of Colors, is an Indian religious festival in February or March that celebrates the arrival of spring.

The festival begins in the evening with a huge fire. It is a time for friendship. People greet each other and wish each other a happy Holi. And then the fun begins. It's a wild and crazy time when people throw a kind of color powder and water at each other. It doesn't matter if you are not a friend or family member: someone will throw colors at you. Of course, the colors go everywhere on the street, on the houses, and on the cars and buses. Tourists come from all over to watch and participate! Some people worry that Holi wastes too much water, both for throwing and for cleaning up afterwards. But nothing stops people from having fun on this holiday. India isn't the only place with a fun holiday like Holi. Thailand, for example, has Songkran, a day when people throw water at each other.

Use the Unit 10–12 grammar and vocabulary

Unit 1: A paragraph about your talents or hobbies

1. Study the writing rule.

Writing a title

A good title creates interest. A title can be just a word or two, or it can be a sentence or question. But the title should reflect the main idea of your writing, and not just a detail.

For title style, capitalize the first and last word, and all other words except:

- articles (*the, a, and an*)
- conjunctions (*and, or, and but*)
- prepositions.

2. Write these titles in title style.

1. I have a new hobby!
I Have a New Hobby!
2. what am I good at?
3. my greatest talent
4. a profile of my talents and hobbies

3. Read Joaquin's paragraph. Choose the best title.

- I'm Just the Opposite My Friends
 How Do I Make Friends?

Am I good at solving puzzles or inventing things? No way. My talent is making friends! When my classmates ask me how it's possible that I have so many friends, I tell them, "It's easy. Show interest in other people. Ask them questions and listen to their answers." I never start by talking about myself. I'm just the opposite. I begin by asking questions and listening. When you listen to others with interest, it makes them feel important and happy, and they want to be friends with you.

4. In your notebook, write a paragraph of between five to ten sentences, describing one or more of your talents or hobbies. Give your paragraph a title. Use Joaquin's paragraph for support.

Check your work

- Does my writing have a title?
- Does the title reflect the main idea?
- Does the title use the correct title style?

Unit 2: A paragraph about your habits

1. Study the writing rule.

Parallel structure

Use the same grammatical form for all the words or phrases in a series.

• Gerunds in a series

✓ I love **drawing, painting,** and **playing** the piano. (All words are gerunds.)

NOT I love drawing, painting, and ~~to play~~ the piano.

✓ I like **to swim, to play soccer,** and **to ride my bike.** (All phrases are infinitives.)

NOT I like to swim, ~~playing soccer,~~ and to ride my bike.

• Infinitives in a series

✓ I like **to swim, to run,** and **to ride my bike.** OR

With infinitives, it's OK to use **to** with the first verb only.

✓ I like **to swim, run,** and **ride my bike.** **NOT** I like ~~to swim, run,~~ and ~~to ride my bike.~~

2. Read Amy's paragraph. Correct three errors in parallel structure.

This is a busy year for me. I really love ^{cooking}~~to cook~~, acting in plays, and doing karate. Unfortunately, I have a problem: my study habits. When I get home from school, I don't do my homework right away. Instead, I like to have a snack, watching TV, to check my e-mail, and texting my boyfriend. I know it's important to start my homework, work on my projects, and to check my schedule for the next day before I do other things, but it's not easy!

3. In your notebook, write a paragraph about your good and bad habits. Use the Vocabulary on page 16 for ideas. Include at least two sentences with a series of gerunds or infinitives. Be sure to use parallel structure.

Check your work

- Did I write about my good and bad habits?
- Did I write two sentences with a series of gerunds or infinitives?
- Did I use parallel structure?

Unit 3: A comparison of life today and in the past

1. Study the writing rule.

Topic sentences

A *topic sentence* expresses the main idea of a paragraph. A topic sentence usually comes at the beginning of the paragraph, although not always. Other sentences in the paragraph support or provide details about the main idea.

2. Read Audrey's paragraph about electronic devices. Find and underline the topic sentence.

Today we can buy electronic devices that our grandparents couldn't even imagine when they were young. Back then, cell phones didn't exist, so people used public telephones on the street if they were late and wanted to call home. Very few people had computers or the Internet at home, so they used to go to the public library for information. Although they had TVs, there was no video on demand, so they watched programs at the same time as everyone else.

3. In your notebook, write a paragraph comparing an aspect of life today with the past. Start your paragraph with a topic sentence. Use Audrey's paragraph for support.

Some ideas:

- Your city or country in the past and now
- Activities your family did in the past and now
- The things you used to have or do and the things you have or do now
- Your tastes in food, clothes, music, or movies years ago and now

Check your work

- Does my writing compare the past and the present?
- Is there a topic sentence?
- Do the other sentences provide details about the topic?

Unit 4: A summary of a text

1. Study the writing rule.

Summarizing a text

A summary presents, in your own words, the main ideas of a text you have read. A summary is shorter than the original text. To write a good summary of a written text, take notes of the most important facts. Then use your notes to write sentences in a short paragraph.

2. Read Abby's article about Chicago on page 22. Then look at Connor's notes and summary. Find two facts in Abby's article that Connor didn't include. Why didn't he include them?

- big city in the U.S. - used to be 2nd largest city
- tourist attractions: park, with sculptures/Willis Tower
- on Lake Michigan
- cold, windy in winter / cool in summer

Summary

Chicago is a big city in the U.S. Chicago used to be the second largest city in the U.S., but it's not any more. However, Chicago is a wonderful city with great tourist attractions. There's a beautiful park with sculptures, and there's Willis Tower, the second tallest building in the U.S. Chicago is cold and windy in the winter because it's on Lake Michigan, but in the summer the weather is cool.

3. Read the interview with Soojin on page 34. Complete the notes, according to details in the interview, using Connor's summary for support.

- from South Korea
- arrived at the school two weeks ago

4. In your notebook, write a summary of the interview, using your notes. Your summary should be between five and ten sentences.

Check your work

- Is my summary shorter than the original text on page 34?
- Is the summary in my own words?
- Does my summary present the most important facts of the interview?

Unit 5: A paragraph giving advice

1. Study the writing rule.

Unity of content

All the sentences in a paragraph should support the main idea. Don't include ideas in your paragraph that are not related to the main idea. If you think other details are important or interesting, you can write an additional paragraph with a new topic sentence.

Reminder

Indent the first sentence of a paragraph.

2. Read Gloria's paragraph about how to have healthy teeth. Her title and her topic sentence express the main idea. There are two sentences that are not related to that idea. Find them and cross them out.

How to Have Healthy Teeth

If you don't want to have problems with your teeth, there are some very important things you should do. First, visit your dentist at least once a year, twice a year if necessary. Brush your teeth twice a day, in the morning and before you go to bed at night. Don't eat a lot of sweet foods like candy and cake. Birthday cake is delicious. I had my birthday last week, and my mom made a beautiful cake. If you eat sweet things, brush your teeth right after eating them because sugar can damage your teeth.

3. In your notebook, write a paragraph giving advice about smoking. Write a title for your paragraph. Include a topic sentence that expresses your main idea. Use Gloria's paragraph for support.

Ideas:

- why smoking is bad for your health
- why smoking is bad for your social life
- ways to stop smoking

Check your work

- Is there a title?
- Is there a topic sentence?
- Did I indent the first word?
- Is there unity of content? Do all the sentences relate to the topic?

Unit 6: A short visitor's guide to your city or town

1. Study the writing rule.

Organizing details in your writing

If your writing topic includes different subtopics, group the details about each subtopic together.

2. Tony has grouped the details in his paragraph into three subtopics: natural beauty, art, and food. Read his guide to Benton and put a slash (/) where each new subtopic starts.

Benton: A Nice Place to Visit

Benton is a great place to visit if you like natural beauty, art, and good food. / The beautiful Hudson River is nearby. You can see the Hudson from Green Woods, a lovely forest near town. You can also see the Hudson from Mount Marie, a small mountain only one hour by car from downtown Benton. If you like art, there are actually two nice museums downtown: the Benton Art Museum and the museum at Eastchester College. And for food lovers, on the first weekend of each month there is a food festival at local restaurants. All restaurant meals are half price before 6:00 and after 9:00. So come to Benton. There's something here for everyone!

3. In your notebook, write a one-paragraph visitor's guide to your city or town. Choose two or three subtopics and group the details for each subtopic together. Begin your paragraph with a topic sentence that introduces the subtopics of your paragraph. Use Tony's paragraph as a model.

Check your work

- Does my guide have a topic sentence that introduces the ideas that will be in the paragraph?
- Does my guide include subtopics?
- Are the details of each subtopic organized so they are grouped together?

Unit 7: A paragraph about your favorite athlete

1. Study the writing rule.

Provide reasons to support an idea

When you express an idea or opinion, support your idea or opinion with reasons.

Kerri Walsh is one of the most exciting volleyball players in the history of the sport. **One reason is** she has helped her team win more games than any other player. **Another reason is** she has played in the Olympics four times and won three gold medals. **Furthermore**, she has her own radio show now and it's fantastic!

Other ways to provide reasons

The main reason is ...

For one thing, ...

For another, ...

Besides, ...

2. Read Jessica's description of a favorite athlete. Underline the reasons she provides to support her ideas.

My favorite athlete is the British soccer player David Beckham. He has stopped playing now, but I'm still a huge fan. The main reason is he helped make soccer more popular in the U.S. For another, he has had an interesting life. He married a famous singer and he is the father of four children. Furthermore, he's a huge celebrity.

3. Write a paragraph about your favorite athlete. Include specific reasons why he or she is your favorite. Use the description in Exercise 2 for support.

Check your work

- Does my paragraph have a topic sentence?
- Did I provide more than one reason to support my topic sentence?
- Did I use at least two of the ways to introduce reasons?

Unit 8: Suggest a course of action

1. Study the writing rule.

Conclusions

End a paragraph with a conclusion by restating your ideas. Introduce a conclusion with any one of the following expressions:

In short, ... In summary, ...

In conclusion, ...

2. Read Odette's paragraph. Underline the conclusion.

Protecting the environment is a big job, but there are a lot of things you can do to help. For one thing, you can make sure your family recycles bottles, cans, and paper every day. If someone forgets to turn off the water, you can talk to that person about it. You can also collect money to help organizations that work to protect the environment. In short, if we do little things to help protect the environment, we might make a huge difference.

3. In your notebook, write each statement below as a conclusion. Introduce each with a different expression.

1. If we work to help protect the environment, we might make a huge difference.

In summary, if we work to help protect the environment, we might make a huge difference.

2. We shouldn't think there isn't anything we can do to help.
3. People can help protect the environment if they want to.

4. Write a paragraph to suggest a course of action. Choose a topic. Include a conclusion at the end of your paragraph. Use Odette's paragraph for support.

Topics

- protecting the environment
- keeping your neighborhood clean
- welcoming a new student to your school

Check your work

- Did I include a topic sentence?
- Did I include several suggestions?
- Did I include a conclusion?

Unit 9: A persuasive paragraph

1. Study the writing rule.

Persuasion

In a persuasive paragraph, you try to convince someone to agree with a point of view. Here are two ways to persuade someone:

- State the benefits of your idea
If everyone recycles household waste, there will be less waste in our landfills.
- Compare your idea with alternatives
Clear Skin face wash gives faster results than any other.

2. Read the advertisement. Underline three benefits and one comparison with other products.

Hairshine Shampoo

Hairshine Shampoo is simply the best shampoo you can buy. With Hairshine, your hair will look better and it's also good for the environment! With every purchase of Hairshine, we donate a percentage of our earnings to environmental organizations. *There aren't many other brands that can say that!*

3. Choose a product you know. In your notebook, write a benefit statement for the product and a comparison statement.

Benefit: *The Sammy 520 smartphone looks really cool and it's easy to use.*

Comparison: *The Nanny 335 looks pretty cool, but the Sammy 520 doesn't cost as much.*

4. Write a persuasive paragraph about the product you chose in Exercise 3. Begin with a topic sentence introducing the product or idea. Use the Hairshine ad as a model.

Check your work

- Did I write a topic sentence introducing the topic I'm writing about?
- Did I state the benefits of my product?
- Did I compare my product with alternatives?

Unit 10: Describe the consequences of a social problem

1. Study the writing rule.

Using *this* to refer to an earlier idea

Use *this* to refer to an idea you stated earlier.

One typical kind of bullying is gossiping about others. **This** is a problem both at school and online.

Cyberbullying has become a serious problem. There have been two recent articles in the newspaper about **this**.

2. In your notebook, change the underlined phrases to *this*. Write the sentences.

1. The huge number of cars and factories in our city is causing serious air pollution. The air pollution is causing health problems.
This is causing health problems.
2. Many bullies have experienced being victims of bullying, too. It's important to talk to bullies about their experience as victims.
3. Students who are victims of bullying sometimes have difficulty sleeping. The lack of sleep causes problems for them in school because they can't concentrate on their work.

3. Read Louis's paragraph. Circle two uses of *this* as a reference to an earlier idea.

Bullying in school causes a lot of problems. For example, the victims of bullying feel very uncomfortable socially. Because of this, they don't want to go to school. Another problem is that the stress that comes from bullying means that students can't sleep. This is why many victims have trouble with their studies.

4. Write a paragraph about one of these social problems. Start with a list of consequences and then write four to six sentences. Use *this* to refer to at least one earlier idea. Use Louis's paragraph for support.

Social problems

- bullying
- littering
- gossiping
- pollution

Check your work

- Did I include a topic sentence?
- Did I use *this* to refer to an earlier idea?
- Did I include a conclusion?

Unit 11: Provide advice

1. Study the writing rule.

Agreement in number

Be sure nouns and pronouns agree in number (singular or plural) with their *antecedents* – the earlier words or phrases they refer to.

Burglars often break into people's homes during the day because **they** know that people are not usually home.

NOT Burglars often break into people's homes during the day because **he** knows that people are not usually home.

2. Read each pair of sentences. Circle the word or words that agree in number with their antecedent.

- Stores sometimes put video cameras where it / **they** can film people while they shop.
- Burglars enter houses through first-floor windows because many people don't lock **them** / it.
- Tourists want to visit interesting places in a city. Sometimes **this place is** / **these places are** in dangerous neighborhoods.
- The boys from my school were **the one** / **the ones** who vandalized your school last year.

3. Read Oliva's paragraph. Correct two errors with singular/plural agreement.

You don't have to worry all the time about crime, but it's important to pay attention to them. Here's what I do to avoid being a victim of crime. When I go out, I never carry a lot of money with me. I only bring what I need. I always pay attention to other people to see if he is acting strangely. At night, I never go out alone. In short, if you are careful, you can relax and have a good time when you go out.

4. In your notebook, write a list of suggestions for avoiding crime. Then write a paragraph about the topic. Use Oliva's paragraph for support.

Check your work

- Did I include a topic sentence?
- Did I check for errors in agreement in number?

Unit 12: A description of a holiday

1. Study the writing rule.

Agreement in person

Be sure all pronouns agree "in person." Don't mix them.

These sentences do not agree in person.

✗ There are some things **you** can do to avoid becoming a victim of crime. For example, **you** should pay attention to the people around **us**.

You can correct them two ways.

✓ There are some things **you** can do to avoid becoming a victim of crime. For example, **you** should pay attention to the people around **you**. OR

✓ There are some things **we** can do to avoid becoming a victim of crime. For example, **we** should pay attention to the people around **us**.

2. Choose the correct pronouns in the following sentences.

- We celebrate April Fool's Day on April 1st. It's a day when **we** / **they** play jokes on other people.
- Songkran is a cool festival in Thailand. People celebrate **them** / **it** by throwing water at each other.
- You should visit Canada's Balloon Festival in August. **We** / **You** can see hundreds of huge balloons there.

3. Read Gretchen's paragraph. Correct two errors in pronoun agreement.

My favorite holiday in my country, Sweden, is "Midsommar." During this holiday in June, we celebrate the longest day of the year. Early in the day, you decorate our homes and cars with flowers. In the afternoon, we all meet at the park and we dance traditional dances. In the evening, we make delicious dishes with fish and potatoes, and you eat strawberries.

4. Write a description of your favorite holiday. Use Gretchen's corrected paragraph as a model.

Check your work

- Did I include a topic sentence?
- Did I check that all pronouns agree in person?
- Did I check that all nouns and pronouns agree in number?

Science: The importance of sleep

3.14)) 1. Read the article about sleep. How does sleep deficiency affect people?

It's essential to get enough sleep. Getting enough sleep can help protect your mental health, physical health, quality of life, and safety. Sleep deficiency – not getting enough sleep – can lead to problems.

Brain Health and Emotional Well-Being

Sleep helps your brain work properly. While you're sleeping, your brain is preparing for the next day. It's forming neural pathways to help you learn and remember information – whether you're learning math, English vocabulary, or how to play the piano. When you're sleep deficient, the brain doesn't have time to rest, so you may have problems paying attention. This can affect your progress at school. Sleep is also important for emotional health. Young people who are sleep deficient often have problems getting along with their friends and other people.

Sleep helps the brain form neural pathways.

Physical Health

Sleep supports the body's growth and development in children and teens. And your body's immune system, which fights illness, needs sleep to stay strong. When people are sleep deficient, they can have trouble fighting common ailments, such as colds and the flu.

Daytime Performance and Safety

Because sleeping at night helps you pay attention during the day, it helps you make decisions. People who don't get enough sleep make more mistakes. Sleep deficiency has played a role in many terrible accidents. In the U.S., sleep deficiency causes approximately 100,000 road accidents every year. It's important for all of us to get enough sleep.

How much sleep is enough?

This chart shows the amount of sleep people need at different ages.

Age	Recommended amount of sleep
0–5 year olds	11–12 hours a day
6–12 year olds	At least 10 hours a day
Teens	9–10 hours a day
Adults	7–8 hours a day

2. Choose the correct word or phrase to complete each statement, according to the article.

- Getting along with others is an example of physical health / emotional health.
- Sleep deficiency is a term for getting / not getting enough sleep.
- Having trouble fighting ailments is an example of a physical / an emotional problem.
- A good night's sleep helps the brain / the immune system prepare to learn and remember information.
- Many road accidents occur each year because of sleeping/ sleep deficiency.
- People of different ages require different amounts of / kinds of sleep.

3. Write a check mark for the topics you can learn about in the article.

- the importance of sleep
- the importance of a good diet for a healthy immune system
- the number of sleep hours necessary for people of different ages
- the consequences of sleep deficiency
- the right method for learning math, English vocabulary, and the piano

Project A sleep diary

Every night for one week, write down the number of hours you sleep. Then calculate the average number of hours you sleep. Compare your own average with that of your classmates. Do you sleep more or fewer hours than the class average?

Biology: Genetics and you

3.15)) 1. Read the article about genetics. What are some characteristics or traits that come from genes?

Genes carry instructions for the development of our bodies. Our genes come from our parents in pairs – one from our mother and one from our father.

Physical characteristics come from genes. According to scientists, it's not clear yet if our personalities do too.

Scientists have proven that our genes determine our physical characteristics and traits such as height, hair color, and eye color. For example, we get two genes from our parents to determine the color of our eyes. The gene for brown eyes is *dominant*, or stronger than, the gene for blue eyes. Genes that are not dominant, such as the gene for blue eyes, are called *recessive* genes. In order to have blue eyes, we need to have two genes for blue eyes.

What about our personalities? Our personalities affect how we act in all our social interactions with other human beings – family members, friends, colleagues, and strangers. We can change our behavior, but our individual personalities don't change much throughout our entire lives.

Some people believe that our personalities do not come from genes. They argue that they are a result of the environment we grow up in – our interactions with others. However, people who grow up in the same environment often have completely different personalities. So this theory cannot be entirely correct.

A U.S. study of identical twins who grew up separately found that many shared the same personality traits. This is interesting because identical twins share the same genes. However, while scientists have successfully identified genes that determine physical traits, they have not yet discovered a gene that determines personality. In other words, there is no proof that our personalities come from genes. Nevertheless, most scientists today believe personalities come from both genetic and environmental factors.

Identical twins share the same genes. Often, they also share similar personality traits.

2. Choose the best way to complete each statement, according to the article.

- Our genes determine ...
 - what we look like.
 - who our parents are.
 - our social interactions.
- ... determine our eye color.
 - Our father's genes
 - Our mother's genes
 - Both parents' genes
- If the gene for black hair is dominant, a person who gets one gene for black hair and one for blond hair will have ... hair.
 - black
 - blond
 - brown
- The U.S. study of identical twins suggests that our environment ... an important factor in developing our personalities.
 - probably is
 - probably isn't
 - definitely is
- There is scientific proof that ... from genes.
 - physical traits come
 - personality comes
 - personality doesn't come
- Most scientists today believe that our personalities come from ...
 - our genes.
 - the environment we grow up in.
 - our genes and our environment.

3. Match each word from the article with its definition.

- | | |
|----------------|-------------------------------------|
| 1. development | a. interactions with other people |
| 2. dominant | b. about genes |
| 3. recessive | c. stronger than others |
| 4. environment | d. change or growth |
| 5. theory | e. not dominant |
| 6. genetic | f. something people believe is true |

This is my friend Emmie and her sister, Mia. Emmie is tall, but Mia is short. Emmie has brown hair and blue eyes. Mia has blue eyes too, but she has blond hair. Emmie is an extrovert, and she's very funny. Mia is very serious. Their mother, on the other hand, ...

Project A family poster

Make a poster with photos about physical and personality traits in the same family. It can be about your family, a friend's family, or a famous family.

History: The Olympics in Ancient Greece

- 3.16 1. Read about the Olympics in Ancient Greece.
Who could compete in the Ancient Olympic Games?

The first Olympic Games were in 776 BC in Olympia, Greece.

The Olympics used to take place every four years, just as they do today. But unlike today, the Games were always in the same place in Greece, a valley called Olympia. Athletes and spectators traveled over land and sea to arrive at the Games from all parts of Greece and their colonies far and near. The map shows the large distances between some of the colonies and Olympia. Travel took a long time in ancient times.

The colonies of Ancient Greece (in red)

What were the most important sporting events?

Some sports in the modern Olympics come to us directly from the Olympics thousands of years ago. The famous *pentathlon*, a five-event combination of jumping, running, and wrestling, and the throwing events of discus and javelin, contained sports that still exist in the Olympics of today!

The equestrian events – those involving horses, such as riding and chariot racing – were some of the most exciting events of the Ancient Games.

Who competed in the ancient Olympics?

Only men and boys who spoke Greek could compete in the Olympics. Women and girls could not compete. In fact, married women couldn't even be spectators. If a married woman even entered the stadium, she could receive the death penalty!

In almost all events, athletes didn't wear any clothes, so there were no colorful uniforms as in today's Olympics.

Did women ever participate in athletic contests?

In the 6th century BC, the Heraean Games began and were the first official women's athletic competition. The Heraean Games also took place every four years in the stadium of Olympia. The only sport was running, on a track one-sixth shorter than the men's track. Why? Because according to the Ancient Greeks, a woman's stride (the distance between the left and right foot when running) was one-sixth shorter than a man's.

The discus event was also a part of the Ancient Olympics.

A four-horse chariot

2. Complete each statement, according to the article. Use the words below.

chariot discus equestrian javelin **pentathlon** track

- The pentathlon is a group of five sports events.
- _____ and _____ are two events where athletes throw objects.
- An _____ event is one with horses.
- _____ racing was an equestrian event in the Ancient Games.
- The place where a running event takes place is a _____.

3. Circle T (true), F (false), or NI (no information), according to the article.

- Spectators and athletes traveled long distances to the games. T / F / NI
- The games were in a different location every four years. T / F / NI
- Married women could watch the men compete. T / F / NI
- Women competed in the equestrian events. T / F / NI
- The women's track wasn't the the same as the men's. T / F / NI
- Women athletes wore uniforms. T / F / NI

Project History research

Research the sports of the Ancient Olympics. In small groups, choose one of the sports of the pentathlon, and make a poster with facts and pictures about it.

Astronomy: Solstices and the phases of the moon

3.17)) 1. Read the article. Why did people in ancient times celebrate the sun and moon?

Throughout history, people have paid special attention to astronomical events, such as the position of the sun in the sky and the phases of the moon.

One of these events, a solstice, occurs twice a year – in December and June – as the earth rotates around the sun. December 21st is the year's shortest day in the Northern Hemisphere, and it's the longest day in the Southern Hemisphere. June 21st is the opposite: it's the longest day in the Northern Hemisphere and the shortest in the Southern Hemisphere.

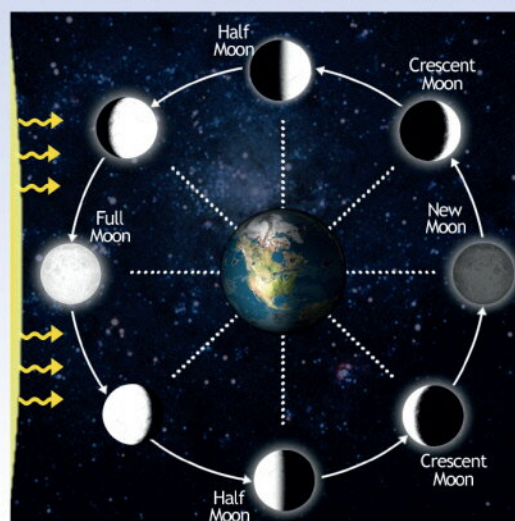

Many cultures around the world have always celebrated the solstices for many years. In ancient times, people recognized that the sun was necessary for life. It provided light during the day and helped food grow. The solstices marked the time of year when the days began to become shorter or longer.

There are many holidays today that began as celebrations of a solstice. For example, in Sweden, people celebrate Midsummer's Eve on or around the June solstice.

Ancient people also paid special attention to another important set of astronomical events – the phases of the moon. Every month, as the moon rotates around the earth, the sun's light moves across the moon. A new moon – the phase when we don't see the moon – occurs when the moon is between the sun and the earth.

In the past, people used the shape of the moon to decide when to plant their food. Some used the moon to organize their calendars. Many holidays today, such as China's Moon Festival in September or October, are based on a lunar (or moon) calendar.

Phases of the moon

The light on the moon changes as it rotates around the earth. A full moon is farthest from the sun.

2. Choose the correct way to complete each statement, according to the article.

- A solstice occurs ...
 - once a year.
 - b.** in December and June.
 - every month.
- A solstice is ... day of the year.
 - the shortest
 - the longest
 - the shortest or the longest
- The moon changes from new moon to full moon ...
 - once a year.
 - twice a year.
 - every month.
- A ... moon occurs when the moon is closest to the sun.
 - full
 - new
 - half
- Ancient people thought both the solstice and the phases of the moon were important for ...
 - studying the night sky.
 - growing their food.
 - having lots of light.

3. Circle the correct word or phrase to complete each statement.

- The earth rotates around the **sun** / moon / hemisphere.
- The moon rotates around the sun / earth / solstice.
- The Chinese Moon Festival is based on a solstice / a lunar calendar / the light.
- When it is the longest day of the year in North America, it is the shortest / longest / warmest day in South America.
- The moon appears smallest when it is a full / half / crescent moon.

Project Phases of the moon poster

At the beginning of the next month, keep track of the phases of the moon for the whole month. Create a poster with pictures showing the changing phases of the moon and the dates they occur.

Carmela

I just saw Abby's post about trends of the past. Check out this interesting information I found about the history of phones.

3.18

1. Read Carmela's post on Teen2Teen Friends. When did the purpose of telephones start to change?

The origin of the telephone

In the 1870s, electricity was the most exciting technology of the day. In the U.S., scientist Alexander Graham Bell had a thought: maybe it was possible to transmit sounds, such as the human voice, over an electrical wire. Within four years, in 1876, Bell succeeded in making that possible, and the telephone was born.

Bell's "Box" Telephone (1876)

Form and function over the years

For the next 150 years, the telephone just kept developing. At first, to make a call, people used to pick up the phone and tell an operator the name of the person they wanted to call. Then the operator made the call for you.

A telephone operator

Modern developments

Even with these developments, until the 1990s, the telephone had only one use: to permit people to speak to others. In 1993, however, a new phone (the "Simon") that could send and receive e-mails appeared. Not many people bought this phone at the time, but it changed our idea of what a telephone could do.

The "Simon" (1993)

Today, our concept of "phone" includes more than making calls. To us, a telephone is a wireless cellular device for downloading and listening to music; for watching videos; for taking photos; for uploading pictures to social media; and for texting and e-mailing. It's a device that allows us to navigate from place to place, using GPS technology. What do you think the next development of the telephone will be?

Today's smartphones

An early phone

A rotary dial phone

A numbered keypad

Later, telephones began having dials and then numbered keys so people could make their own calls without an operator. For a long time, people only used phones in their homes or offices. Very few phones were portable, so to make a call outside the home or office, people used a public pay phone.

1. Read Abby's post about glaciers. Why are glaciers so important?

I've always wanted to visit a glacier. However, I've read about them online, and apparently there are some huge problems affecting many of the world's glaciers. Look at this.

Abby

All about glaciers

Much of the world's fresh drinking water comes from glaciers. As glaciers melt during the warmer months, the water feeds great rivers with fresh water. You can find glaciers in about 50 countries around the world, on every continent except Australia.

Glaciers are like "rivers" of ice.

While glaciers are made of ice, they are in fact a lot like rivers. They are constantly moving down mountainsides or across continents toward large bodies of water, such as rivers, lakes, or oceans. However, they move too slowly for us to see. In some places, where a glacier meets the ocean, huge pieces of the glacier break off and fall into the water.

Huge pieces of ice break off and fall into the ocean.

Unfortunately, because of global warming, temperatures are getting higher, and the world's glaciers are melting very quickly. This is also causing the level of the ocean to rise, which will cause flooding and be a problem for people and animals in coastal areas. Research has revealed this warming and melting trend in many areas of the world.

Today

A recent study showed that glaciers on China's Qinghai-Tibet Plateau have gotten shorter by 196 kilometers over the last 40 years. These glaciers are the source of three of the great rivers in the world: the Yangtze River in China, the Indus River in India, and the Mekong River in Southeast Asia.

2. Choose the best way to complete each statement, according to the article.

- Glaciers provide water for ...
 - global warming.
 - rivers and lakes.
 - research.

3. Based on the information in the article, what are three possible predictions? Write check marks (✓).

- There will be flooding in places close to the ocean.
- Huge pieces of ice will continue to fall into the ocean.
- There will be less fresh drinking water.
- There will be a lot more beaches.
- There will be more drinking water for everyone.
- Glaciers will stop providing water to the world's great rivers.

Chen

Hey, guys! Here's an article I found about what causes acne, and some possible ways of treating it. I think it's pretty interesting.

- 3.20 1. Read Chen's post about skin care. What are some different ways to treat acne, according to the article?

Acne treatments

Many, or even most, teenagers get acne: a combination of pimples and blackheads that can be mild, moderate, or severe. Although most acne is mild and will get better over time, treatment is sometimes necessary for severe cases. Conventional medicine and traditional Chinese medicine (TCM) are both used all over the world, but offer somewhat different views of acne causes and treatments.

Both approaches recommend that a patient consult a medical professional of some kind. Dermatologists often prescribe lotions and face washes to clean the skin because bacteria can cause acne. In some cases, they might also prescribe antibiotics and other medications that work inside the body to fight the bacteria that cause acne.

Unlike conventional medicine, TCM teaches that there are actually two types of acne, one caused by too much heat in the body, and another caused by poor circulation of the blood. Depending on which kind of acne a patient has, the treatment might be a change in diet, acupuncture, or face washes – but unlike those in conventional medicine, TCM face washes are usually made with herbs or flowers.

There are many popular myths about acne. Many people believe that eating chocolate and other foods causes acne. Another myth is that stress causes it. There is no scientific evidence that either of these actually cause acne, although everyone agrees that it's a good idea to keep skin clean and that stress might make acne worse.

Traditional Chinese medicines often come from herbs.

1. Read Carlos's post about staying safe online. What are some things you should **NOT** do online?

Hi, people! It's important to know how to stay safe online. Here are some smart tips I found!

Carlos

Stay safe from cybercrime!

The Internet is a great place to meet new people and find information. However, it's important to pay attention to the information you share and who you communicate with online. Here are some tips to stay safe.

Think before you post

It's fun to share photos with your friends, but don't post photos of yourself where strangers can see them. Check your privacy settings and make sure that only your friends can see your information or photos.

Protect your personal information

We use passwords to log onto a lot of websites, and we often need to register at those sites, using personal information. But be careful! There are people online who want to steal your information, so make sure you don't share your passwords with anyone. Choose passwords carefully and change them often.

Don't talk to strangers

There are a lot of great people communicating on the Internet, but some people online are not so nice. If you receive posts or e-mails from someone you don't know, think carefully before you respond. And if someone invites you to meet somewhere, tell your parents about it before you make a decision.

Think before you open attachments

Someone you don't know might send you an e-mail with an attachment that contains a computer virus. A virus can cause all kinds of trouble. It can stop your computer from working normally or it might make it work very slowly. Never open a file or message from someone you don't know! Be safe by hitting "Delete" instead.

Don't believe everything you see on the Internet

Pop-up advertisements are annoying, but they might also be a way for someone to cheat you. In many programs you can choose to block these ads so you don't have to see them. Most importantly, if an online advertisement sounds too good to be true, it probably is. Be careful where you spend your money online.

So have fun when you use the Internet. But remember to stay safe!

2. Check the tips that you think the writer of the article might agree with. Write an X if you think the writer might disagree.

1. Send your passwords to your friends in an e-mail.
2. Read online advertisements carefully before you buy anything.
3. It's a good idea to block pop-up advertisements.
4. Protect your password and don't ever change it.
5. Don't worry about posting photos online.
6. If you get an attachment from someone you don't know, don't open it.

3. Choose the best way to complete each statement, according to the article.

1. Your privacy settings / personal information / computer viruses can help you stay safe online.
2. There are people online who want to change / steal / protect other people's information.
3. A computer virus might make your computer work better / badly / faster.
4. You should share / e-mail / change your passwords often.
5. Be careful with attachments because they might contain a photo / a virus / an ad.
