Day 1: Welcome to my new page! All the posts are in English!

Hello! I'm a Spanish student. I'm in Notting Hill, London, England. I'm here to learn English.

My English family's name is Cole. Andrew (the husband) and Megan (the wife) have three children: Ethan (16), Jason (21) and Emily (25). Emily's married. They're all very friendly, but they speak very fast! It's difficult to understand them.

Day 3: My first day at school!

Today is my first English class at St Martin's College. It's a big school in the centre of London, in Covent Garden. It's near a lot of shops, cafés and theatres.

It's great! My class is very international! The students are from Italy, Hungary, Japan, China, Egypt, and Switzerland. Our teacher's name is Debbie. She's very young and she's very nice. I really like her. She's a good teacher.

Day 10: I love London!

Hello again! It's great here. I love London! It's big and very interesting. I like shopping here, but it's very expensive. I go to the museums and galleries. The National Gallery is free! And I go to the parks. They are really beautiful. I go by bus or by Underground - it's very easy. The weather's OK. It's cold, but sunny. And the food is great! There are lots of Spanish restaurants in London! Check out my photos.

The Yanomami and the Amish

The Yanomami are Amazonian Indians and they live in the Brazilian rainforest. A Yanomami family often has six or seven children, and families live all together in one big hut.

E

The Amish live on farms in the USA. They have big families. They don't have cars, they use horses, and they don't use electricity or phones. They wear old-fashioned clothes.

D

Guiomar is nine. She gets up early, but she doesn't go to school. She helps her mother to find food and learns how to cook with her. Then Guiomar plays with the other children. She goes to bed when the sun goes down because they don't have lights. It's hot in the rainforest, so she sleeps outside.

'I help my mother with breakfast, and I cook dinner with her, and my grandmother, too. It's hot so I don't usually wear clothes.'

Toin is 11. He likes being with his father. His father doesn't go to work. He hunts in the rainforest, and he teaches Toin to use a bow and arrow. In the evening, Toin eats, sings, and dances with all the other children and their families.

'I don't go to school. I go out with my father and learn how to hunt, sometimes for 2 or 3 days. We usually hunt birds. I take my pet monkey with me!'

F

Tomas is 12. He starts work on the farm in the morning and then has school at home with the other children. He also has homework. On Sundays, he goes to church, and visits other families. He likes playing baseball.

'I get up at 5 o'clock and I help my father with the cows. Then I have breakfast. I don't like school – I like doing work and being outside!'

Kristina is 14 and she has six brothers and sisters. She doesn't have school now – it stops when you're 14. She cooks, cleans and does the washing with her mother. In the evenings, she reads and plays board games. She likes singing.

'Family life is important for us. I help my mother with the little children. I don't go to bed late – our house doesn't have electric lights.'

by CASILDA GRIGG

Frankie Dettori was born in Milan, Italy in 1970. He now lives in England near Newmarket, a market town famous for its race courses. His wife, Catherine, is English. They have five children, Leo, Ella, Tallula, Rocco, and Mia. He doesn't have many weekends off.

Frankie says: 'I don't have many free weekends because on Saturdays and Sundays I ride. I often have Mondays off, but then everybody is at work, so I have no friends to play with. That's very sad.'

I have some weekends free, and I like coming home to my house, near Newmarket. It's nice – I get home on a Friday night, put on my pyjamas and watch TV. Brilliant! But, it's very noisy – we have five kids and a lot of pets. One of my daughters got an emu on the Internet, he's called Bruce and lives in the garden. We also have a gecko – it's my son's – a hedgehog, and two donkeys.

On Saturday nights, I sometimes cook. I usually do fish and chicken, but I cook a good pasta as well – obviously Italian food is my favourite. I'm a big fan of Japanese food as well.

On Sundays, my kids often compete in pony club shows. Pony club competitions last a whole day. We pack a picnic, the ponies and our three dogs and all set off for the show, a happy family. I like watching the kids on their horses.

In the evening, I usually watch a football game. I'm an Arsenal fan. I'd love to be a footballer, but I'm too small. By the end of the weekend, the house is a mess – there are children's toys and clothes everywhere. Catherine gets the kids to bed and I have a glass of wine.'

Alexandra Burke was born in London. She now lives in a village near the city. She is one quarter Jamaican, Indian, Irish and English. Her mother was a soul and R&B singer. Alexandra won the TV talent show *The X Factor* and now stars in West End musicals. She likes to spend weekends at home with her dogs and family.

Alexandra says: 'On Fridays I like to have my family to my house – my brothers, David and Aaron, my sister Sheniece, my mum and my dad. I always cook. I make Spaghetti Bolognese, my favourite food. I love it!'

My three dogs, Alfie, Prince and Teddy, run around and there's reggae music because my dad's Jamaican. My dad lives near me. He's a chef and I want to learn how to make Jamaican food.

On Saturdays, I get up late – Alfie sleeps on my bed – then I take the dogs for a walk. I often spend the day with my nieces and nephews. We have a picnic lunch in the garden, or when it's nice and hot we go to the park.

As a Jamaican family we like to have chicken soup on Saturday night. Dad usually makes it.

On Sunday mornings, I often do a 'hot' yoga class near my house. Then we go to church. It's always very lively, with lots of singing and a band. After church we sometimes go to the pub for a roast dinner and then we go home and watch the football together as a family. My family support Arsenal, but I'm a Manchester United fan. In the evening, we sometimes drive into London and go to a club. The **Drury Club** in Covent Garden is great on a Sunday. It's got great music – my dad often comes, too.

There is never a day when I *don't* speak to my mum or my dad. I talk to my brothers and sister, too. I have a lot of great people around me. I'm very lucky!

 - any tennis courts
 - places to sit for 650 MPs

Is there a gym? Yes, there is.

Are there many staircases?

Yes, there are a lot.

The Houses of Parliament

The British Parliament is often called 'the mother of all parliaments', because it was the first in the world. There are two houses, the House of Lords, and the House of Commons. The politicians who work in the House of Commons are called Members of Parliament (MPs).

The Palace of Westminster

The Houses of Parliament are in the Palace of Westminster. It's most famous for Big Ben (this is the name of the bell inside the clock, not the name of the tower). The palace was first built for King Edward the Confessor in 1050 and now has more than 1,100 rooms on four floors, and over 100 staircases. There is also a hairdresser's, a pub, a gym and a post office.

The House of Commons

In the big chamber* here, the MPs sit on green benches. The government MPs sit on one side, and the other MPs opposite. The leader of the House is called the Speaker, and he has a special chair in the middle. There are 650 MPs, but only 427 places to sit, so on busy days over 200 MPs stand, sometimes for hours.

In front of the green benches there are two red lines, with 2.5 metres between them – the length of two swords. MPs can't cross these lines, so they can only fight with words! The King or Queen can never enter the chamber of the House of Commons, only the House of Lords.

Speaker's House

The Speaker is the only person who lives in Westminster Palace, in Speaker's House. This is under Big Ben. Downstairs there's a living room, and two big dining rooms, and an amazing bed the King or Queen can sleep in! They never do! Upstairs there's a modern apartment, with four bedrooms.

Interesting note

Not many people know this, but under the Speaker's Chair in the House of Commons there is a toilet! It has curtains that you can pull around it!
 In the past, it was there for the Speaker when the business of the day was very long. Of course, the Speaker doesn't use it today!

- What about your family? Who are you close to? Why?

 **Go online** to watch a video about and learn about a school for talented young musicians.

THE KANNEH-MASONS

Is this the most talented family in Britain?

This was the question asked by the TV and music producer, Simon Cowell, when six of the seven brothers and sisters were on the TV show 'Britain's Got Talent' in 2015.

The children are often called 'prodigies', but their mother doesn't like this. She knows they are talented musicians, but says that they are **successful** because they work very hard.

Sheku at the royal wedding

In 2018, Sheku was a special guest at the royal wedding of Prince Harry and Meghan Markle, where he played three of his favourite pieces on the cello.

Konya, Aminata, Isata, Jeneba, Sheku, Braimah

Four of the five daughters with their parents, Stuart and Kadie

In 2016, **Sheku**, one of the two brothers and a brilliant cellist, was the *BBC Young Musician of the Year*. He was just 17 years old. His sister **Isata**, 19, was also a finalist in the BBC competition in 2014. She is a pianist and a violinist. But, amazingly, they are not the only talented musicians in the family. Their brother **Braimah**, 18, and sisters, **Konya**, 15, **Jeneba**, 13, **Aminata**, 10, and little **Mariatu**, 6, can all play musical instruments really well.

Isata and Braimah are full-time students at the Royal Academy of Music in London. Isata has a scholarship from the singer/songwriter **Elton John**. She plays the piano, violin and viola. Braimah plays the violin. Next is Sheku. He could play the cello when he was six and now attends the junior school of the Royal Academy. He gets up at 4.30 a.m. every Saturday and goes by train to London. His sisters go with him.

The family live in Nottingham, England. Mother, **Kadie**, is from Sierra Leone, West Africa, and the father, **Stuart**, comes from Antigua, in the Caribbean. They are both very musical – Stuart plays the cello and Kadie the clarinet, so you could always hear some music in

their home. But they say that their children's amazing musical talent is still a shock to them and they now have an orchestra in their house. Isata, the eldest,

was the first to start playing (the piano), and so when the others were born it was normal to hear music in their house. Their home has four pianos, three cellos, four violins, and a viola, and the children practise for two hours a day, sometimes more.

The family aren't rich. Money is always a worry. Instruments are very expensive – one cello string costs £80! Their car is very old and they never buy new clothes or go on holiday. But the parents are very proud of their children. Their father, Stuart, says, 'A lot of teenage boys, especially, feel it isn't 'cool' to play an instrument.' He's really pleased that his children don't think that.

Sheku Kanneh-Mason, age 6

FORGOTTEN FEMALE FIRSTS

HEDY LAMARR

The Hollywood film star behind the invention of Wi-fi and mobile phones.

The Austrian actress Hedy Lamarr was born in Vienna in 1914, as Hedwig Kiesler. She was a very clever girl, always interested in how things worked – she loved taking her music boxes to pieces and putting them together again.

However, she also loved acting, so she left school early without qualifications and started drama school.

Hedy the film star

Hedy first worked in Czechoslovakian films, and she quickly became a successful actress, often called 'the most beautiful woman in the world'. She married in 1933, but her husband didn't want her to work, and kept her locked in the house.

Finally, in 1937, she ran away to Paris. There she met an American film producer, and under her new name, Hedy Lamarr, she was soon a famous Hollywood actress.

Hedy's problem was that she soon got bored with film roles that were just about being beautiful. She didn't enjoy Hollywood parties, and liked to spend her free time inventing things.

Wartime work

During World War II, she had an idea for making it difficult for the Germans to stop American radio signals. She was the first person to think of sending bits of information on different radio waves, and then putting them together when they arrived – like a jigsaw. Sadly, the US Navy didn't take her seriously.

No one understood how important Hedy's work was until many years later, and not many people know that it is her idea that makes Wi-fi and mobile phones possible today. She died in 2000. In 2015, Google told her story in one of their 'doodles' on her birthday.

ROSALIND FRANKLIN

The scientist who didn't get the Nobel Prize for discovering the structure of DNA.

The British scientist Rosalind Franklin was born in London in 1920. She was a very intelligent girl, and did maths exercises in her free time because she loved it! She went to Cambridge University, where she worked very hard studying Chemistry. However, she didn't actually get a degree when she finished her course – this was in 1938, and at that time only men could receive degrees.

Finding her place

Her first job was in a laboratory in Paris, where she took X-ray photographs of chemicals to learn more about their structure. She enjoyed living in France, and spent her free time walking in the mountains. When she went back to London in 1951, she worked with the scientist Maurice Wilkins in Kings College, and began studying DNA.

Her problem was working with male scientists – they often didn't take female scientists seriously. Wilkins wanted Franklin to be his assistant, and when she wanted to do her own work, he called her a 'dark lady'. In the evenings, Franklin couldn't eat in the same college dining room as the men.

Discovering DNA

Franklin's work went well, and she was the first person to show DNA's structure in a photograph. Wilkins showed the photo and her work to two other scientists, James Watson and Frances Crick – he did this without asking Franklin. When Watson and Crick later won the Nobel Prize for discovering the structure of DNA, they didn't say that Franklin's work was very important in their discovery.

Rosalind died of cancer in 1958, probably because of all her work with X-rays. In 2013, on her birthday, Google told her story in one of their 'doodles'.

In your own words

THE HISTORY OF ICE CREAM

'WHO INVENTED ICE CREAM?'

There is no sure answer to this question. Perhaps it was the Chinese in 200 BC – they used ice to freeze rice with milk. Perhaps it was Alexander the Great, or the Roman Emperor Nero AD 37–68 – they both liked snow flavoured with fruit and honey.

13TH CENTURY CHINA > ITALY

In 1269, Marco Polo travelled to East Asia. He returned home 24 years later with many 'Marvels of the World', including a recipe for ice cream from China. So, the Italians became the first people in Europe to enjoy this luxury.

16TH - 17TH CENTURY ITALY > FRANCE > ENGLAND

Italian noblewoman, Catherine de Medici, was a great fan of ice cream. In 1533, she married Henri II of France and introduced him to the delicious dessert. Later, Charles I of England became an ice cream fan when his French chef made it for a royal banquet. He called it 'cream ice' and paid his chef £500 to keep the recipe secret. However, in 1665 it appeared in an English cookery book by Lady Anne Fanshaw. She called it 'Icy cream'.

For many years, ice cream was a luxury, enjoyed only by royalty and the rich. It wasn't until 1686 that ice cream first appeared on a restaurant menu. A Sicilian, Procopio dei Coltelli, opened the Café Procope in Paris and introduced Italian Gelato. It was made of milk, cream, butter and eggs – more like the ice cream we know today.

18TH - 21ST CENTURY AMERICA AND THE WORLD

We don't know exactly when ice cream arrived in America, but it was probably with European settlers in the early 1700s. We do know that the first advertisement appeared in the *New York Gazette* in 1777, and the first ice cream parlour opened in New York City in 1790. We also know that the first ice cream factory opened in Baltimore in 1851, but grocery shops didn't start selling it until the 1930s.

The popularity of ice cream grew and grew. In 1946*, the Americans celebrated victory in World War II with ice cream, and in 1984, US President Ronald Reagan made July 'National Ice Cream Month'.

*Although the war ended in 1945, food rationing didn't end until 1946.

ICE CREAM - SOME AMAZING FACTS

- 1 The most popular ice cream flavour is vanilla, followed by chocolate and strawberry.
- 2 Some of the most unusual flavours are toothpaste, fish & chips, garlic, and pizza.
- 3 President George Washington once spent \$200 on ice cream (about \$3,000 today!).
- 4 NASA says that ice cream is one of the things most missed by astronauts in space.
- 5 In the early days of TV, mashed potato was used in cooking shows because ice cream melted under the lights.
- 6 The busiest day for selling ice cream is Sunday.
- 7 Americans eat on average 27 litres of ice cream a year, but New Zealanders love it more. They eat 28 litres.

Hi Matt,

Thanks for last weekend. It was really great. The meal was fantastic – didn't know you could cook! Just kidding ;-). Email me the recipe. I'd like to make Toad in the Hole for my friends here – they're always starving hungry!

The journey was sooooooooooooo long and boring – the coach stopped at a motorway service station where I had a disgusting cheese sandwich and a cold coffee. Yuk!

I slept for the rest of the journey – not surprising really – we did dance all night! House Rules was a brilliant club, but going to bed at four and getting up at eight to go back to Manchester was awful! You're a star for getting up early to take me to the coach station!

Everyone here is worried about the exams. They start next week, like yours. It was good to forget about them for the weekend! I miss you a lot. Come and visit me soon – it's cheap on the coach.

Can't wait to see you again. Email me or send a text.

Dear Mr and Mrs Evans

I'd like to thank you so much for having me to stay last weekend. I had a really lovely time, and I was so pleased to meet you at last. The meal you made was delicious. Matt told me his mother was an excellent cook – and he was right. I also enjoyed our walk – the countryside and woods near your house are beautiful.

The journey back was long and I slept for most of the way. It was very kind of you to drive me to the station so early in the morning. I was very grateful!

It's good to be back at university. I have a lot of work at the moment before the exams start. I know Matt has exams too, so we can't see each other until the end of June – we are just too busy!

I'd love to visit again in the summer holidays with Matt.

Thank you again for everything.

Best wishes,

Tanya

Living the high life

Eureka Tower,
Melbourne

Once skyscrapers around the world were full of offices, not apartments. In 2000, only three buildings higher than 200m had apartments in them. Today there are more than 250, many of them luxury apartments for rich people who want to live the high life.

Better technology makes life at the top easier. Lifts can now travel much faster, more than 40 mph. Also, the buildings don't move so much in the wind any more.

So, what's it like to live on top of the world?

A Roz Kaldor-Aroni, 54,
Eureka Tower,
Melbourne, Australia

Roz Kaldor-Aroni is CEO of a medical research charity. She and her husband lived in another skyscraper before they moved into the 91 floor Eureka Tower in 2006. At nearly 300m, it was then the world's tallest apartment block. They live on one of the highest floors of the building, with their son, Gideon, and Roz loves it. It's not because of the apartment itself, she says: 'It's very much about looking outside. It's not about the inside.' She never gets bored with the view. 'Every time I look out of the window it looks different – I notice something new.' They are building an even taller block of apartments nearby. 'We will lose part of our view', says Roz, 'but we can't really complain.'

When she's ready to drive Gideon to school, Roz doesn't listen to traffic reports. 'I just look out of the window,' she says. 'I have two ways we can go, and I can see the traffic from here and take the better one.' There's no need to check the weather, either – you can see where the clouds are. But you can't see the ground when the clouds are low!

Nature can seem a long way away, but it's only a three-minute walk to the park. 'When Gideon was little,' Roz says, 'he came back from a friend's and said, "Mummy, we played in the park", and I said, "No, that was their garden!"'

The family are fine with heights, but visitors sometimes find it more difficult. 'We had one babysitter who was so stressed out, she couldn't come back.' And people's ears often pop on the journey up, just like in an aeroplane!

The view from Eureka Tower

B Mike Palumbo, 50,
Water Tower Place,
Chicago, US

Mike Palumbo was born in the suburbs of Chicago. However, when he went to school in the centre of the city, he felt at more home there. 'I loved it', he says. He often looked up at the 343-metre John Hancock Tower and dreamed of living in a place like that one day.

When Mike became a financial trader, he made a lot of money on the money markets, so he bought an apartment in a 262-metre skyscraper, opposite John Hancock Tower!

The 8-bedroom apartment is on the 64th floor of Water Tower Place, which has 74 floors. Mike lives there with his wife, Veronica, and they look down on most of the other skyscrapers around.

Mike got job offers from Wall Street in New York, but he never wanted to leave Chicago. 'I just love this view', he says. 'When I wake up in the morning, the first thing I do is open the blinds and let the sun come in. It doesn't get any better.'

Believe it or not, Mike is scared of heights, but he's OK with them through windows! When he sees a team of window cleaners outside, he always thinks, 'I would not want that job!'

The 64th floor is obviously not the easiest place to have small children, but amazingly, Mike and Veronica have twins! It can take a long time to get everybody and everything into the lift. Are there any other disadvantages to living there?

'I'm a dog lover', says Mike, 'but there are people who don't want them in the building.'

What community traditions are there in your country? Find out more about one and tell the class.

 **Go online** to watch a video and learn about another exciting challenge.

THE CASTELLERS OF CATALONIA

It's a bright, sunny afternoon in Catalonia, Spain. A man is walking towards a stadium with a young girl on his shoulders. The girl is nervous, but excited. She's wearing a blue shirt, white trousers and a red safety helmet. Perhaps she's going to be in a cycle race? But no, she hasn't got any shoes on! So, what *is* she going to do?

The girl is **Carla Olivella**, from the town of Vilafranca, and she's going to climb. She's going to try and climb to the top of a tower of people. Carla and her sister, Mariona, are *castellers*. It's an old tradition, and people come from all over Catalonia to enter competitions to make human towers, or *castells*. There are hundreds of *castellers* in the stadium, and thousands of people are going to watch them climb.

Castells score points for how high, and for how difficult they are.

FROM THE BOTTOM TO THE TOP

The oldest and biggest *castellers* push together around the bottom of the tower to make it strong. The smallest and lightest children go higher up. The child at the very top is called the *enxaneta* (the 'rider'). When they get there and put their hand up, their team can win.

A falling tower

'Everyone is nervous', says Carla, a new *enxaneta*. 'It's my first competition.' Her mother is even more nervous. 'When Carla and Mariona climb, I watch their every move', she says. 'I can't not look.' It can be dangerous. The people towers often fall, and when a 12-metre tower collapses, it's a long way down for those at the top.

EVERYONE IS IMPORTANT

Mariona, eight, became an *enxaneta* when she was five. She likes drawing, eating pasta, and climbing, climbing, climbing. She's never afraid. 'She has amazingly cold blood', her father says. That's not true for him – he cries every time his daughters climb. In one competition, the tower fell twice before Mariona could get to the top. Her father ran to her and found her crying. 'I'm not crying because I'm hurt, I'm crying because I'm angry!' she shouted. Her 600 teammates heard her and decided to have one more go. And Mariona got to the top!

Castells show that every single person in the community has an important role to play. The big, strong men at the bottom are no more important than the women and boys in the middle, and they can't win without the little girl at the top.

HIGHEST AND BEST

The winning tower isn't always the highest – it also depends on how complicated they are. Carla climbed the highest and most complicated tower of the day in her first competition. The Vilafranca team were champions! Mariona is getting bigger, and knows she can't be an *enxaneta* for much longer. She's going to start gymnastics soon. Is she afraid of anything? She thinks for a moment. 'Getting bad grades at school.'

21ST CENTURY 'EXPLORERS'

GARY CONNERY Wingsuit flyer

LYNNE COX Cold-water athlete

ROBBIE SHONE Cave explorer and photographer

KAREN DARKE Paralympic cyclist, triathlete and adventurer

Human beings have been to all corners of the world. They have explored land and sea and even walked on the moon. How much more is there for them to explore and experience in the 21st century? The answer is: 'A LOT'! Human beings are amazing!

is 42 and he's a ' . He has made over 1,350 jumps from a helicopter over 730 metres above the Earth. He's flown free through the air at 80mph (128kph) and landed *without* a parachute. He has jumped from the Eiffel Tower, Nelson's Column, the London Eye, Tower Bridge, and from inside the Millennium Dome.

So, what exactly is 'wingsuit flying'? It is the sport of skydiving, but you don't use a parachute to land. You wear a special suit with huge wings on the arms and legs, and you fly for miles like a bird and finally land on a mountain of cardboard boxes!

Gary's lucky – the sport he loves is also his work. He has worked in over 100 films as a stunt man. Perhaps you saw him in one of the 'Indiana Jones' or 'Batman' films or in TV's 'Sherlock Holmes'. But surely his most famous role was when he played Queen Elizabeth II in the opening ceremony of the 2012 Olympics in London and flew into the Olympic Stadium.

swims as easily as most people walk. She is American, but has twice held the record for the fastest swim across the English Channel, from England to France. She has also swum across the icy waters of the Bering Strait from Alaska to the Soviet Union. This swim was in 1987 and took just two hours and five minutes. The two countries' presidents, Ronald Reagan and Mikhail Gorbachev,

praised her courage. Gorbachev said it showed how close the people of America and Russia were.

Lynne has swum all over the world in even colder waters. In 2003, she swam 1.22 miles (1.96 km) in the Antarctic. Here the sea gets cold enough to kill a person in 5 minutes, and she got into the water and stayed there for 25 minutes. She has also swum round the Cape of Good Hope in South Africa and the Straits of Magellan in Chile.

Lynne has survived not only freezing waters but also a serious heart illness. She is a true superhero.

'Caving' (called 'spelunking' in the US and Canada and 'potholing' in the UK) is the sport of exploring underground caves. **Robbie Shone** is a **cave explorer and photographer**. He has travelled the world with his camera, from the Alps in Austria to China, from Borneo to Mexico. He has taken pictures of the deepest, largest and smallest caves ever discovered and his photographs have appeared in many books and magazines, including the 'National Geographic' and Bear Grylls' 'Great Outdoor Adventures'. In 2007, he worked on the BBC TV series, 'Earth – The Power and the Planet.'

Caving is often very dangerous. There are big dangers such as flooding or rock falls, but also smaller ones. In 2016, during a three-month trip to Papua New Guinea a leech got into Robbie's eye and stuck to it. It took two days before he finally removed it with salt and meat!

It is no surprise that Robbie has received many national and international awards for his photographs.

In 1992, a fall when **rock-climbing** changed **Karen Darke's** life forever. She thought her sporting life was over, but since then she has found that even when paralysed many things are possible. She has won medals at the Paralympics and travelled the world, having adventures on wheels, water and snow. Karen just loves being outdoors. She says: 'I think adventures can be anything – small or large – in your garden or on the other side of the world.'

She has crossed Greenland's 372-mile ice cap sitting on skis, kayaked from Canada to Alaska, and hand-cycled over the Himalayas.

She has also climbed Mont Blanc and the Matterhorn, and hand-cycled, skied and swum the length of Japan. In 2010, she became a member of the British Paralympic cycling team and in 2012 she won a silver medal at the London Paralympics. In 2016, she did even better and won gold in the Rio Games in Brazil. In 2017, she received an MBE from Queen Elizabeth for services to sport.

Karen is truly an inspirational and extraordinary human being.

Unit 3

3.1 Sport is my life

'I work hard ... but I'm lucky! I love what I do,' says Logan Cooper. Logan Cooper is 19 years old. He comes from Perth, Australia, but he now lives in Newcastle, in the north of England. He's a rugby player. He plays rugby for the *The Newcastle Rebels* and he trains every day from Monday to Friday for the BIG game on Saturday. Sunday is his one free day, his day off! He doesn't do much on Sundays. He has a flat near the sports ground with Tony, another player from the team. Every summer he goes back to Australia for one month. One day he hopes to play rugby for his country.

3.2 Questions and negatives

- I Where do you come from?
L Perth, Australia.
- I Where do you live now?
L Newcastle, in the North of England.
- I Do you like rugby a lot?
L Yes, I do. I love it.
- I Do you train hard?
L Yes, we do.
- I Do you relax on Saturdays?
L No, I don't. We always play matches.
- I Do you play rugby on Sundays?
L No, we don't. It's our day off.

3.3 'I live for my sport, I love it!'

We train hard every weekday, usually at the sports ground, but sometimes we go running or cycling in the countryside. We cycle for miles, often to the sea. I really love the beaches near Newcastle, they're beautiful, but I don't go swimming there – I never swim – the North Sea is too cold. It's freezing, summer and winter, not like in Australia! Tony goes swimming sometimes – but then he doesn't feel the cold ... he's from Newcastle!

Saturday is the BIG day, Match Day! On Friday evening Tony always cooks a huge meal for us, white rice or potatoes, with chicken and green vegetables, but of course we don't drink any alcohol! I love the excitement on Saturday – especially when we win!

Sunday? ... Sunday, we don't do much, we're so tired. We just relax and watch TV – sport of course. My favourite is the skiing, 'Ski Sunday', and football, I'm a *Newcastle United* fan – of course. Oh, and I 'Skype' my mum and dad in Australia. I miss them a lot. They want me to play for Australia one day.'

3.4 An interview with Logan

- I Hi, Logan. Good to meet you. You're a great rugby player. Can I ask you some questions?
L Yes, of course.
I Now, tell me, where exactly do you come from?
L From Perth, Australia.
I Ah, yes. I know Perth, it's a lovely city. And do you like living here in Newcastle?

- L I do. I love the countryside and the beaches are beautiful ... but ... not like in Australia!
I Yeah, sorry about that – the sea's really cold here.
L And where do live in Newcastle?
L I live near the sports ground – I have a flat with another player on the team, Tony Jones.
I Great! It's nice to share with a friend. I know you work hard for your sport. How often do you train?
L We train every day – all day.
I And do you always train at the sports ground?
L No, we don't. We often get out of the city – we go running or cycling in the countryside ...
I ... or on the beach?
L Yeah, we sometimes run there – but I don't go swimming. Tony does, but then he's a Newcastle boy!
I I see! And what do you and Tony do on Fridays, before Saturday's match? Go to the pub?
L Of course not! Tony always cooks a huge meal for us – he's a great cook. We have chicken, rice, vegetables ... stuff like that. No beer – that's for after the match.
I And do you relax on Sundays?
L Oh yes, it's our day off. We don't do much at all – just watch TV – sport of course.
I Just rugby? Or do you like any other sports?
L Not always rugby! I like watching skiing and football too. I'm a Newcastle United fan now.
I Good for you! Last question Logan. Do you miss your family in Perth?
L Of course – but I skype them every Sunday evening. They love to hear my news and I love to hear theirs. They want me to play rugby for Australia one day.
I I'm sure they do. And I'm sure you will one day. Great to talk to you. Thanks very much.

3.8 Dr Susan Hall – an expert on the work-life balance

Of course, work or study is important for us all – it gives structure to our everyday lives. But, for a happy, balanced life it's also important to 'play' sometimes. It's important to find time to relax with friends and family. It's not good to think about work all the time. I know from my work as a doctor that it's sometimes difficult not to take your work problems home – but if you take your problems home you never relax and it's difficult for your family and bad for your health. Don't live to work, work to live! Life is more than work. How many people do you know who really love their work? How many people just work for the money? You know what they say, 'If you love your job you never have to work again!' I think that's true.

The living room has one big window. It faces south, so it's always very sunny. I have two comfortable, old armchairs, but I don't have a sofa because the room is quite small. There isn't a garden but there's a small balcony. I want to put a chair there, so I can sit in the sun on summer evenings. 6.9 2001 – the year you were born

- L Hey, dad! This is a really cool card!
 D Yeah, it's really interesting, isn't it? Did you know any of the events on it?
 L Well, obviously I knew about 9/11...
 D Yeah – you were born just two weeks after that – on September 25th.
 L Yeah, exactly two weeks after. And, of course, I knew that Bush was the U.S. president at that time but I didn't know Putin was the Russian Prime minister. What do you remember of 2001?
 D Well, of course the best bit was when you came into the world.
 L That goes without saying but what about the rest?
 D Let's see the card – oh, I remember the Foot and Mouth crisis – that was terrible, the poor farmers. It went on and on – your mum and I couldn't go walking in the countryside and I couldn't play golf, the club was closed and you know how I love my golf.
 L I do – so do you remember Tiger Woods being 'Player of the Year'?
 D Oh yes, Tiger Woods, I remember that. And I remember buying my first iPod – that was great – all my favourite songs in one place. You know I'm a big Beatles fan...
 L ... so you obviously remember when George Harrison died.
 D Yes, I do, but it wasn't as shocking as when John Lennon was killed in New York in 1980.
 L Yeah, I know about that. What about Harry Potter? Did you know that the first film came out in 2001?
 D No, I had no idea when it came out. I saw the film years later with you.
 L Yeah – I loved all the Harry Potter books and the movies. Now, the last thing... the Tower of Pisa. Didn't we have a holiday in Italy when I was very young?
 D Yeah, you were five, I think, but we weren't near the Tower of Pisa – I know nothing about that – I don't know anything about its history at all.
 L I'll look it up on Wikipedia – I didn't know that began the year I was born. Did you know, dad?
 D No, I didn't. Your card is full of surprises.

8.11 A meal to remember

1 John

For me it has to be this. I was with my girlfriend in France, in Nimes in the south. We were students, studying the language, and, of course, we didn't have any money... well... very little money. We knew a cheap, but good, café near where we lived, but we could still only afford one meal between us. We ordered one small steak and some chips to share – we finished it in minutes. The man at the next table had a mountain of mussels and some bread and wine. He looked at us and smiled, then he said – er – in French, of course, 'I'm not so hungry this evening – would you like some of these?' And he gave us a big bowl of his mussels. The café owner saw this and smiled, and then he came over to our table with two bottles of really good white

wine and four glasses. And so we all – the café patron, the kind man, my girlfriend and I sat down together and enjoyed delicious food and drink, excellent conversation and a lot of laughs. It was a great evening and a meal to remember for the rest of my life!

2 Alison

This is a very memorable meal for me – er from many years ago. My husband and I were living and working in East Africa, on the coast – er in a town called Tanga in Tanzania. Tanga's a port, so lots of boats came there from all over the world – and – er – some from North Africa – and – er we often had Arab dhows there, selling rugs. We bought one, a really beautiful one, and we still have it. Anyway, because of this, we were invited to a meal on board one of the dhows. We were really excited. What an experience! We took our ten-month-old daughter with us and sailed out to the dhow. We could smell the most fabulous smell as we got near to it. The men welcomed us warmly and helped us aboard with the baby. And there, in the middle of the deck, was one huge bowl of the most delicious chicken curry, it looked and smelt fantastic! Then, ... all the men, and my husband, sat down on the deck round the bowl and started eating, just with their hands, taking out large pieces of chicken. Unfortunately, according to custom, because I was a woman, I couldn't eat with them. I just held the baby and watched. Finally, they finished and it was my turn – the only problem was that there was no chicken left in the curry! Just some sauce! That didn't please me at all and it's why I will always remember that meal!

9.1 London or New York?

London is home to Wembley Stadium.
New York has 5,800 skyscrapers.
The highest building in London is 310m.
The people living in New York speak 800 different languages.
Paddington Bear went to stay in London.

9.3 Which do you prefer?

- A Which do you prefer, London or New York?
B Well, I'm American, so of course I love New York more.
A I think London's more interesting. And it's a lot bigger than New York.
B True, New York is much smaller than London. But the buildings are so much taller, and for me, that's more exciting!
A Mmm. I guess the weather's better in New York.
B Well, people think so, but it's worse than London for rain!
A Really?!

9.4 I think it's taller

I think the Freedom Tower is taller than the Shard, but I think the Shard is more beautiful.
I think the Underground is more expensive than the Subway, and the trains are more crowded.
There are more parks in London, and they are bigger – and nicer, I think.
I think the weather in New York is hotter in summer and colder in winter. It's also wetter, but I think New York is sunnier.
I think the people in New York are friendlier, but I think Londoners are more polite.

9.5 Larry – An American living and working in London

Well, I like both New York and London, but they're good for different things. New York is easier to walk around, because it's smaller. The Underground is

better than the Subway – it's much nicer ... but it is more expensive. Of course, there are a lot of older buildings in London, so it's kind of more interesting. And I really love the parks here. My favourite is Regent's Park, but there are so many. I read that nearly half of London is green – that's amazing! I like it here in summer – it's a lot hotter in New York and it can get way too hot there. Winters are warmer here, but they're so grey! In New York winters are colder, and snowier, but sunnier! As for the people, well, generally Americans are friendlier to strangers than the British. Life is faster in New York, though, and Londoners are probably more polite.

G Yes, we've got a lovely apartment in Brooklyn. We take the subway to work.
I So you haven't got a car here?

11.8 What's the weather going to be like?

- Presenter** Here's Carol with the weather forecast for Europe.
Carol Thanks, Andrew. Well, at the moment there's some wet and windy weather over the UK and Scandinavia, and this is going to move to the east over Poland and Germany. Temperatures in Berlin and Warsaw are about 21° Celsius right

now, but it's cooler in London, more like 18°, and cooler still in Oslo – around 17° there. Further east, it's cool and cloudy in Moscow, where the temperature is a welcome 15° after all the extreme summer heat there. To the south it's a bit warmer, 23° in Budapest, and even warmer as we get further south, so 26° in Rome, but it's going to be cloudy and showery across the north of Italy before long, so temperatures aren't going to stay as high there. In northern Turkey, there's some heavy rain, and it's already getting stormy, so temperatures won't get much higher than 21° in Istanbul. France is going to be cool and cloudy in the north, 20° in Paris, but much warmer and sunnier in the south, with a high of 27° in Nice. The rest of the Mediterranean is going to be warm and dry, too. Portugal and Spain will see plenty of late summer sunshine, with temperatures as high as 29° in Madrid and Lisbon. It's going to be warmer still in Greece, and we're probably going to reach 30° in Athens. And that's your European weather for the next 24 hours. I'll be back at lunchtime with an update.

Presenter Thanks, Carol. And now...

2 If the infinitive ends in *-e*, drop the *-e* and add *-ing*.

write → **writing** *smile* → **smiling**

3 When a one-syllable verb has one vowel and ends in a consonant, double the consonant and add *-ing*.

1 *Whose ...?* asks about possession.

'**Whose** bag is this? Is it yours?'
'No, it isn't mine. It's David's.'

'**Who's** coming for a pizza?' = 'Who is coming for a pizza?'

Positive and negative

I	'm	(not) going to	have a break. stay at home. be late.

- 2 Often there is little difference between *going to* and the Present Continuous to refer to future time.

I'm going to see Peter tonight.

- 3 With the verbs *to go* and *to come*, we usually use the Present Continuous.

We're going to Paris next week.
Joe and Tim are coming for lunch tomorrow.
 NOT ~~*We're going to go.*~~
~~*We're going to come.*~~

11.3 Infinitive of purpose

The infinitive can express why a person does something.
