English Practice Pals
09/28/2012 09:34 dinorainDC@getmail.com

Hi,

I'm looking for someone to practice Japanese with. I can teach you English. I live in Washington, D.C. My family is originally from Brazil, but I was born in the United States. My family lives here too. I am the first-born. I have two younger brothers who are still in high school. I want to learn Japanese because I am moving to Tokyo in January. I recently got engaged. My fiancé has a new job. He has to move to Tokyo for one year. He works for an electronics company and they have an office there. Our wedding is in one month.

I'm very excited, but I'm also nervous. I have never been to Asia. I have never been married before. I will feel more confident when I can speak some Japanese. I want to learn about the culture too.

If you're interested in practicing English as you teach me some Japanese, please send me a message.

Six candidates are running for Student Union President: Alan Walker, Dalia Ramiro, Maria Cabral, Hanaa Nasser, Robert Graham, and Ji-Won Kim.

As the editors of the school newspaper, we support Maria Cabral for president. She is a born leader and problem solver. When she was head of the campus tour guides, Cabral recorded the tour so visitors could go independently. She also pushed the school to make the paths easier for visitors in wheelchairs. Cabral has many good ideas for the Student Union. She works well with other people, so she can get things done. The school needs a leader and an optimist to develop school spirit.

The Student Union will have free coffee and cookies available during voting hours.

He is mad at me because of something very small. I borrowed his car one night to go out with some friends. I went a little too fast and we had a little accident. I hit a tree, and there was a small dent in the front and a flat tire, but that is easy to fix. You could still see through the crack in the windshield. Anyway, I think he should be more flexible and forgiving. Now, should I invite him to the wedding?

Dear Bummed,

It sounds like you are the one who is immature. You crashed your brother's car! He has a right to be mad at you. Have you made a sincere apology? Did you offer to pay for the repairs? I think you need to be more responsible. Apologize, and invite him to the wedding.

My Hero

Heroes come in all shapes and sizes. They can be army generals, or presidents, or police officers. A hero is someone who changes your life, maybe even saves it. My hero is a 12-year-old girl whose name I never knew.

When I was a child, I had many problems. I wore glasses and was funny-looking. I had red hair that stuck out all over my head. I also had a speech problem. I couldn't say the letter s. I was smart, but I never talked in school. The other kids teased me. They called me names. Sometimes they pushed or tripped me. I hated school and I hated myself.

One day, a couple of boys started to push me around on the playground. They threw my books on the ground and ripped my homework. Other kids stood around watching, but no one did anything. Suddenly, a girl pushed her way towards the two boys.

"Stop being bullies," she said. They laughed at her. She wasn't afraid. She picked up my books and handed them to me.

The teasing didn't stop that day, but my fear did. Her compassion and kindness gave me the courage to stand up for myself.

Check the person or people who have each quality.

Get a youth hostel pass. They have hostels in all of those cities. And they're cheap. You will meet a lot of people.

Hostels are too noisy for me. I look for pensions. They are inexpensive and you can get a single or double room. The information desk at an airport can help you.

Dew Drop Inn

The Dew Drop Inn opened last month on Main Street in the downtown area. At first glance, the lobby is attractive with a large waterfall and colorful floor tiles. However, on our visit, a pipe was leaking. There was water on the lobby floor causing a safety problem. The service at the front desk was friendly but slow. The desk clerk couldn't find our reservation, and when she did it was incorrect. We asked for a room with two double beds and they only had a room with a single queen. When we arrived at the room, we were very disappointed. There were many problems with the room. We couldn't plug in the TV and the bed

wasn't made. The table was broken, and the room hadn't been cleaned. We went back downstairs and checked out. The manager gave us a coupon for a free night's stay. The rates are very inexpensive anyway, but it was a nice gesture. Maybe when they have solved their problems, we'll try again.

The Secret Shopper Scoop
Mike's Market Mistakes

Over the weekend, I went to the new electronics store, Mike's Market. I was excited to look at the products and compare prices. Mike has advertised the lowest prices in town on big-ticket items like flat screen TVs, video game consoles, and cameras. At first, I was pleasantly surprised. The prices are low, but the low prices come at a high cost. What do I mean?

Service suffers. Mike is saving money on employees, so service is poor. Very few workers are in the store at any one time. It is hard to get help. I finally found someone to go in the back to get a camera. When he returned, he had brought the wrong one. It took 20 minutes to get the correct camera.

Mistakes matter. The price of the camera was \$249. At other stores, the camera usually costs about \$300. What a deal, right? But when I got to the register, the cashier charged me \$299. We had to call the manager over for help. Again, I had to wait a long time as she corrected her mistake.

Would I recommend Mike's Market? No. To me, time is money and I spent too much.

Match the cause to the result.

Cause

- _____ 2. low prices advertised
- _____ 3. overcharged at the register
- _____ 4. brought wrong camera

Tips for making medical appointments

Everyone hates to wait at the doctor's office. You can save time and aggravation by following the tips below.

- 1. Make an appointment for first thing in the morning or right after lunch.** Doctors can get further and further behind with each appointment. Avoid this problem by being the first appointment in the morning or the first after lunch.
- 2. Call early for a same-day appointment.** If you need to see a doctor right away, you should call as soon as the office opens. Otherwise, their appointments may all be filled.
- 3. Complete paperwork ahead of time.** You can often get forms online or have them e-mailed to you. Then you can fill them out at home rather than in the office. Keep a copy of your medical history at home so you can get specific details easily.
- 4. Wear appropriate clothing.** You'll feel better if you are comfortable and wear clothing and shoes that you can take off and put on quickly and easily.
- 5. List your questions ahead of time.** This is your chance to get the doctor's attention. Ask about any medical problems or concerns that you have.

Mark the statements T (True) or F (False).

Do-overs

Have you ever wanted the chance to do something over again, only this time you would do it differently?

I used to be very shy when I was in high school. When teachers called on me in class, I couldn't get the words out. When a girl spoke to me in the hallway, I stammered and blushed, or worse yet, I looked at the ground and just kept walking. I wanted to be friendly, but my nerves got the better of me. My heart used to beat fast and I'd start sweating.

Our school had a big dance every year. There was one girl I really liked. She was the smartest student in our class, and she was nice and funny. I tried to invite her to the dance one day. I approached her at her locker. Just as I was about to speak, another girl came up. Instead of asking Helen to the dance, I asked if she had a pencil. I was so embarrassed. I didn't even go to the dance. Over the years I've thought about Helen. I've also gotten much more confident. Last year, I found Helen on a social network. I sent her a message and asked her out for coffee.

Circle the correct word or phrase to complete the sentence.

1. The writer used to be *confident/shy* in high school.
2. When teachers called on him, he couldn't *answer/answered*.

4. One day, he tried to ask a girl to a *game/dance*.
5. Instead, he asked for a *pencil/book*.
6. *Ten years ago/One year ago*, he finally asked her out.

PAIR WORK Discuss the questions.

Best Books

A Visit from the Goon Squad

Jennifer Egan

Don't be put off by the unusual title, the strange structure, or the fact that this novel won a Pulitzer Prize. It's really not all that intimidating once you begin reading. Egan's novel moves around in time in surprising ways. The characters behave in ways that are occasionally embarrassing, confusing, and just plain awful, but in spite of that, I care deeply about them. Some readers may wish they had a list of characters and relationships at the beginning to guide them through. It can be a bit challenging to keep everyone straight. The theme of music runs through most of the sections, and the novel itself is structured like an old-fashioned album. The first half is the "A" side, the second the "B". Like the B side of an album, the second half of the book is perhaps less immediately accessible. Readers have to work a little harder in places to follow the "melody." In fact, the very last section is a PowerPoint™ presentation. How strange, but how interesting! I recommend this book to anyone who likes music and novels, especially together.

Mark the statements T (True) or F (False).

- _____ 1. A Visit from the Goon Squad won a prize.
- _____ 2. The novel has an unusual structure.
- _____ 3. Jonathan Egan wrote the novel.
- _____ 4. The characters are good role models.
- _____ 5. Music is both a theme and an organizing tool in the novel.

Read the article below.

What makes something news?

Journalism in all forms (print, broadcast, and digital) is about reporting the news. But just what makes something newsworthy? How do editors decide what stories to feature? What makes one story more "newsy" than another?

Media professionals use the following criteria to judge a story's news value.

Time. News is just that – what's new. Something that just happened is going to be more exciting news than something that happened last week.

Location. People are much more interested in news that happens in their area. A local story about a school fire may come before the news of a tsunami thousands of miles away.

Impact. A story is bigger news if it affects more people. A train crash that kills hundreds may be more important than a plane crash that kills dozens.

Prominence. If the person involved in a story is famous, even something small can be news. Everyone trips sometimes, but a president tripping might be on national news.

Conflict. If a story involves a disagreement between two or more parties, it's interesting. That's why politics gets so much coverage.

Write the criterion next to the news summary. You may use more than one.

1. The Charlotte Observer newspaper reported a new highway will be constructed in Charlotte over the next two years. _____
2. An earthquake affects a major city and damages many buildings. _____
3. Kate Middleton marries Prince William. _____
4. Presidential candidates exchange angry words at a debate. _____
5. A jury verdict just came back in the trial of a man accused of robbing over twenty banks. _____

Part 1

Read the essay below.

Types of friends

People don't get to choose all of their relationships. Some, like our family members, are chosen for us. Some we form as a result of school or work. But we can choose our friends. My friends fall into three categories: fun friends, situational friends, and true friends.

Fun friends do activities with me. We may go out to dinner or play sports together. Sarah is an example of a fun friend. I met her at school, and we discovered we both like to dance and go to movies. We get together about once a week.

Situational friends are people that I like and see at school or at work. While we are in the same situation, we enjoy spending time together. For example, Emily was in my English class last year. We worked on projects together and studied for tests. We don't really get together anymore.

True friends are people that I really care about. We value the same things. We know the good and the bad about each other. Hannah is a true friend. We met in grade school. I talk to her almost every day. She knows my hopes and dreams. We support each other.

Write F (fun), S (situational) or T (true) after each statement.

- _____ 1. We go to movies together.
- _____ 2. We value the same things.
- _____ 3. We are friends mostly because we work together.
- _____ 4. We talk about everything.

Welcome to English 101!

Hello, students! My goal is to be the best instructor I can be. I'd like to know what you think that means. What are the qualities of a good teacher?

Aaron
Hi. I think a good teacher really knows the material and can present it clearly. A good teacher answers students' questions and doesn't lecture all the time.

Ming
I agree with Aaron, but I also think a good teacher is supportive. She needs to encourage students. Sometimes students don't understand or they make mistakes. A good teacher helps them to do better.

Pablo
A good teacher doesn't give too much homework. Many students are very busy. They take a lot of classes or have jobs. It is hard to do a lot of assignments. A good teacher is forgiving when students have problems outside of class.

Sumaya
I think the best teachers are reliable. They come to class every day on time. They need to grade tests quickly.

Cyber Billy
Whoops!

Do you know that more people around the world have mobile phones than have regular access to electricity or clean water? No wonder our phones are so essential to us. But sometimes we can have trouble connecting in real life. Here's an example:

On Saturday, my wife and I decided to spend the day together, doing all the things we are usually too busy to do. We decided to go to the farmers' market, then to a bakery for coffee and pastries, then to the park to listen to music. Unfortunately, my boss and my brother had other plans for me. My boss called and e-mailed me seven times about a project. My brother had trouble setting up his new tablet computer. Everywhere we went, I was on my phone, either texting, talking, or checking e-mail. My wife was furious.

Finally, my wife had enough. She told me to hand over the phone, or she would find someone else to spend the day with. I had a moment of panic, but then I turned it off, saving my battery and the day!

Conditionals

Conditionals describe a condition and a result that follows.

If I study, I will do well on the test.

You **will do** well on the test **if you study**.

The *if*-clause can go at the beginning or at the end. If the clause is at the beginning, it is followed by a comma. There is no comma if the clause is at the end.

The first conditional is used to express a possible condition and a result that is likely to happen.

Form: [*if* + simple present] + [*will/can* + infinitive]

If you **apologize** to Tom, he **will forgive** you.

If you **join** a club, you **will make** new friends.

I'll **watch** the movie with you **if I get** home by 9 p.m.

The second conditional is used to express an unreal or unlikely condition and its result. The condition is unreal because it is different from the facts that we know. We often use the second conditional to express wishes or regrets.

Form: [*if* + past simple] + [*would/could* + infinitive]

If I **didn't have** to work, I **would go** to the birthday party with you.

If we **were** rich, we **could travel** all the time.

You **wouldn't forget** about important events **if you wrote** reminders in your calendar.

Part 1

Read the article below.

Advertising across cultures

If you want to advertise your product in another country, make sure someone in your company is fluent in that language and familiar with that culture. Some of the most famous companies have made terrible mistakes in marketing in other countries.

- General Motors couldn't understand why its new car wasn't selling in Mexico. Then they realized that Nova means *no go* in Spanish. They changed the name to Caribe and sales picked up.
- Pepsodent tried to sell toothpaste in Southeast Asia. The slogan said the

toothpaste would "whiten your teeth." Unfortunately, some people in that region often chew betel nuts to blacken their teeth. They think dark teeth are attractive.

- KFC's slogan promised that the fried chicken was "finger-lickin' good." In Chinese, this was translated to "eat your fingers off."
- Mountain Bell Company wanted to promote its phone services in Saudi Arabia. In the ad, the company used a photo of a business executive sitting at his desk. His feet were on the desk. Saudis never show the soles of their feet.

Trendspotting

How do companies develop products that can become "the next big thing"? Every company wants to create the next iPod, or Guitar Hero, or popular smartphone app. Most companies employ people who act as trendspotters. For clothing companies, trendspotters may hang out at malls or skating parks, or anywhere else that teenagers go. App developers spend a lot of time online, following posts on social media.

Just what makes a good idea become a trend? Malcolm Gladwell discussed this in his book *The Tipping Point*. He says there are three factors that determine a trend: key people, the stickiness of the concept, and the context. Certain people are more important than others in creating a trend. They may know a lot of people in a lot of different fields, or they may know a lot about a particular field, or they may be very persuasive. When something is "sticky" it grabs hold of people – it sticks in their minds. The context refers to what is happening at that time and in that place. Some ideas won't become trends unless the situation is just right. Trendspotters can sense when all three factors are in place.

Mark the statements T (True) or F (False).

- _____ 1. Many companies employ trendspotters.
- _____ 2. Trendspotters always go to the same places to find new ideas.
- _____ 3. Teenagers often set trends in clothing.
- _____ 4. One way a person can encourage a trend is by knowing many people in many different fields.
- _____ 5. A good sign that something is a trend is when people keep thinking about it.
- _____ 6. Context doesn't really matter.

 **PAIR WORK** Discuss the questions.

Can a bookstore succeed?

Ann
I've always wanted to own a bookstore. I've finally saved enough money to open the business, but I'm not sure I can make it successful. So many people are buying electronic books. I know my store would need a great atmosphere and good books, but what else should I be thinking about?

Marco
I love real books and a lot of other people do too. However, I can buy them online and they're often cheaper. Your store needs more than books to bring customers in. What about a café? With home-baked pastries?

Keiko
I think you need events to get people in the door. And not just readings. You could have live music or trivia nights. You have to make the store a fun place to visit.

Nelson
OK, here are some obvious things. Your store needs an excellent location – a place people are always walking by. You need wireless Internet because people who like books also like to get online. You could sell both new and used books. Then some prices would be low.

Complete the sentences.

1. Ann's dream is to _____.
2. Bookstores are having trouble because _____.
3. Marco thinks Ann's store needs _____.
4. Keiko suggests _____.

Tom: No.

Interviewer: Why do you want to work in
 advertising?

Tom: It's _____, and
 _____⁽¹⁰⁾, and I know I

 That is the difference. OK, this went

Reported speech is used to tell what someone has said or written. Quotation marks are not used.

- The teacher says that our test will be next Friday.

(later...)

Rob: Jillian called earlier. She said **she wasn't coming** to work today.

Study Abroad Culture Guide
University of North Atlanta

Students studying abroad with University of North Atlanta programs will experience different cultures. See some examples below. You can find more information on the page for the specific country.

Costa Rica: Time is one area that is culturally different. People in Costa Rica are sometimes flexible with time, especially for social events. They may tell you they will meet you at a café at 1 p.m. Don't be surprised if they don't arrive until 1:30 p.m. or even later. However, they will be prompt for scheduled events such as flight departures.

Japan: You may find that students behave a little differently in class. They may ask fewer questions, and be less likely to say they don't understand something. People often dress a little more conservatively and are sensitive to strong odors including perfume.

Thailand: People in Thailand don't shake hands when they greet each other. Instead, you are expected to give a *wai*. To make the *wai*, you put your hands together as if in prayer and then bow your head slightly. The height of the *wai* depends on the status of the people involved. You don't make the *wai* to a child or someone serving you in a restaurant.

Read the article below.

Who made the Nazca Lines?

People have long wondered about the mysterious designs in Peru called the Nazca Lines. They were created between 500 BC and 500 AD. You can only see them from the air. They form shapes of animals such as a monkey, a bird, a spider, and a fish. Many people think that aliens, people from another planet, must have made the designs. Perhaps they were landing strips for spaceships. Other people thought that the designs must have been created to look like constellations of stars. Some think that the

designs have something to do with water. Ancient people in the area worshiped gods who could give them water, which was so important for their crops.

How did they make the designs? Small stones cover the ground in this area. The ancient Peruvians could make patterns by removing dark-colored stones and exposing the lighter stones below. Whatever the reason for the designs, they remain a tourist attraction.

Mark the statements T (true) or F (false).

- T 1. The Nazca Lines are in Peru.
- F 2. They can be seen from the ground.

Part 1

Read the article below.

The Great Pacific Garbage Patch

Do you know what happens to all of those plastic drink bottles we use? They end up in the middle of the Pacific Ocean. This is called the Great Pacific Garbage Patch. There is a large slow-moving spiral in the Pacific Ocean. The slow-swirling currents collect garbage, especially plastic. Plastic makes up 90% of the trash in the ocean. The eastern part of the patch is twice as big as the state of Texas. It is the largest garbage dump in the world.

Much of the plastic breaks down into small pieces. Fish and other marine life swallow it, so it can end up in the food chain. It is very hard to take the plastic out of the ocean once it gets in there. The best way to deal with the problem is to reduce the use of plastic and to recycle. If we can keep plastic out of our trash, we can keep it out of the ocean.

Complete the sentences.

2. The current there moves very _____ in a circular pattern.
3. Some say the _____ part of the patch is twice as big as Texas.

Graduation and beyond

We've been counting down all year, taking notice of all the things that will end: the last team soccer game, the last dance, the last English class, the last exam, the last cafeteria cupcake. Now it's time to look to the future. My biggest goal is to get a good job. Then I can pay off my school loans and get out of debt. A good job will allow me to be financially independent. What about you? What is your biggest goal?

- Jason

My biggest goal is to go to graduate school. I plan to travel this summer and then go back to school in the fall. I'll be studying biology. I'm thinking about going into research.

- Anita

I'm not so ambitious. My goal is first to sleep and then to get my own place. I can live with my parents, but I want more independence. I want to get an apartment with friends.

- Eugene

Write J (Jason), A (Anita), or E (Eugene) next to each goal.

- _____ 1. get an apartment with friends
- _____ 2. study biology
- _____ 3. get a good job
- _____ 4. get out of debt
- _____ 5. become a researcher
- _____ 6. travel
- _____ 7. live independently

PAIR WORK Discuss the questions.

- 1. Whose goals are the most like yours?
- 2. What do you think most people's goals are after graduation?
- 3. How do you think your goals immediately after graduation will change over the next five years?

Part 2

Write about your goals after you finish school. What do you want to do? Why?

Part 3

Share your goals with a group. What goals are the same?

Watch *The Future* and fill in the blanks.

- Jill: I can't believe you're moving out!
- Maria: It seems like we met just yesterday!
- Eric: I know. But hey, we will definitely see each other.
- Maria: Hopefully I get a job around here too.
- Tom: Of course you will!
- Jill: Eric, why are you throwing that _____⁽¹⁾ bottle away?
- Eric: What? I don't need it. I prefer plastic bottles anyway.
- Maria: _____⁽²⁾ breaks down extremely slowly.
- Jill: Yeah. Keep it. You can use it later.
- Eric: OK. That's a really good idea.
- Tom: Do you guys think _____⁽³⁾ will _____⁽⁴⁾ in twenty years?
- Maria: No, people won't use laptops because there will be large computer screens that look like TVs everywhere! People will be able to use the computers anytime they want, so they won't need their own!
- Eric: Wow. That sounds cool. Have you guys _____⁽⁵⁾ _____⁽⁶⁾ what life will be like in the _____⁽⁷⁾? Maybe, cars will finally fly!
- Jill: I think cars will run from energy in plants.
- Tom: Twenty years from now, I think things will be just as they are now.
- Maria: Maybe, but things can't be exactly the same. Things are _____⁽⁸⁾ so _____⁽⁹⁾ these days.
- Tom: That is true... Hey, Eric. What should I do with the stuff inside your desk?
- Eric: I plan to _____⁽¹⁰⁾ my desk later.
- Tom: OK.
- Maria: What are all your _____⁽¹¹⁾ in twenty years?
- Tom: I want to have a family and have a really cool job where I travel around a lot.
- Eric: I hope I've found the cure for cancer.
- Maria: I want to have my own place and be _____⁽¹²⁾ independent.
- Jill: I want to have my own website with millions of visitors.
- Eric: What if they don't have _____⁽¹³⁾ in twenty years?
- Maria: It might be something else!
- Jill: Maybe, one of us will think of _____⁽¹⁴⁾ _____⁽¹⁵⁾!
- Maria: You guys want to get coffee?
- Eric/Jill: Sounds good! OK!
- Tom: Yes, before coffee becomes a thing of the past!

Habitual present vs. Future time

Time clauses and If-clauses show the relationship between two events. They can be used to show events that happen all the time (habitual) and future events.

After we **get** out of school, we **meet** at the fountain.
 After we **get** out of school, we **are going to meet** at the fountain.
 If we **have** time, we'll **meet** at the fountain.

If the events in the time clause or the if-clause and in the main clause are both habitual, the simple present is used.

After we **get** out of school, we **meet** at the fountain.
time clause main clause

If I **can't understand** an assignment, I **ask** for help.
if-clause main clause

If the events in the time clause or the if-clause and in the main clause talk about the future, the simple present is used in the time clause and in the if-clause. Be going to or will is used in the main clause.

After we **get** out of school, we **are going to meet** at the fountain.
time clause main clause

If I **can't understand** this assignment, I'm **going to ask** for help.
if-clause main clause
